Realtor's Committee Offers to Aid County in Revaluation

ASSISTANCE IS DECLINED

Auditor Announces His Plans Are Already Completed

Organization of a citizens committee to assure Lima a fair and impartial revaluation of the property in the city has been effected, it was learned Tuesday from authoritative sources within the ranks of local real estate men.

A fund has been subscribed by the committee, it is asserted, and the appraisal is found to discriminate against any class of property owners in the city, court proceedings may be started to prevent the valuation being made effective. This information came to light following the confirmation of a report that the services of the Lima Realtors Association have been turned down by C. R. Phillips, county auditor. The realtors had offered their knowledge of property values to the county auditor.

It seems that the tax committee at the county board, headed by John M. Boose had offered long ago to the county auditor in the reappraisal work and he had said that when he got ready he would call on them for help.

"We got a mighty good reception not only that but Phillips told us that he had his plans completed, at he is going to run the reappraisal to suit himself and that did not want our help, said Boose in discussing the trip. "We did not get some idea of what he was planning to do but he refused us information, we could not even find out whether he is going to have a board of three members or a board of five. In fact he just pointed out to us that he had his plans completed and that we might mind our own business, although he did not say that in so many words."

Chairman Boose said he believed there are 25 or more men in the real estate association who are competent to work on the reappraisal and whose knowledge would be highly beneficial to the city.

"I do not want any job for myself on the board but I did offer to serve on an advisory board to the county auditor so desired but it proposition was refused," said Chairman Boose. "Now we are going to get back and see who is named on the reappraisal boards, then we will judge whether the boards will be experts or on the job for business."

HAMA TRIAL ON

man Demands Support for Commonlaw Children

OTTAWA—Mrs. Margaret Mahesh took the stand today in the trial of her suit to compel Fred J. Ma, Leipzig, to support two of her children, of whom she alleges is father under a common marriage.

Mrs. Mahesh, declared he is the father of Helen Margaret and Dorothy, who were born in 1914 and 1915, respectively, and when Helen Margaret was born and at Lima, Ohio, City.

How he gave birth records to register in Troy, N. Y., naming himself and her as father and mother of Helen Margaret.

His case is attracting interest as it affects the common law marriage and the rights of children.

SEARCH FOR KIDNAPER CENTERS HERE WITH ARREST OF SUSPECT

Tip to Lima Police Results in Capture of Trainrider

HAS \$52 BUT "BEATS" WAY

Prisoner Held While Word is Awaited From Chicago

Nation wide search for Harry Williams, indicted kidnaper of Rose Borth, 12, of Chicago, centered in Lima Tuesday with the arrest at 11:45 p. m. Monday of a suspect, who gave his name as Albert Vogel, 20, salesman, of New York City.

Warned by Ft. Wayne police that a suspect answering the description of Williams was on a Pennsylvania train, Detectives Lawler, Taylor, Hargrove and Clapper searched the train and found the suspect riding "blind baggage."

Searched at headquarters he had \$52.85 in his pocket, sufficient to pay his fare from Chicago to New York, the destination he reported to police. A loan stub showed he borrowed the money in Chicago.

Vogel is being held pending word from Chicago authorities. As soon as police made the arrest a telegram giving the suspect's description was forwarded to that city. So far no reply has been received.

Blanket charge of train riding will be preferred against the suspect until police are able to determine if he is the man wanted.

Williams was indicted Monday on a true bill charging kidnapping. Other indictments, one a statutory charge, it is said are to be returned upon confinement of the fugitive in Chicago. The little girl, who is said to have been brutally assaulted by Williams, appeared before the grand jury with her parents.

NEW GYM OPENED AT CHURCH

Basketball Games, Dinner and Speaking Are Features

More than 250 persons observed the opening of the Grace M. E. gymnasium Monday night. Three basketball games were played.

Older men played the first game, the Dreadsnaughts defeating the Battlegrounds 11 to 9. Two teams from the Bible Bible class took the floor, the Reds beating the Blues, 21 to 4.

Final game of the evening was played between the Grace church juniors and Columbus Grove. The Putnam-co kids won a close game 26 to 21 by their work in the last few minutes of play.

At the dinner preceding the opening, 90 persons were guests. After musical program by the Sunday school orchestra, Ivor Dixon, president of the young men's class, presided. Those who spoke were: Rev. D. N. Kelly talked on "Our Church," E. M. Botkin on "Our Sunday School," S. C. Biddle on "All of Us" and Bob Ballard read the rules of the new gymnasium.

TRAMP KILLED SATURDAY IS STILL UNIDENTIFIED

Fear that her missing son was the one killed Saturday morning by an Erie train six miles west of Lima, as expressed by Mrs. John Switzer, of Findlay, was dispelled Tuesday when the body was examined by Mrs. Switzer's daughter, who resides at 407 1-2 N. Main-st.

After an examination at Williams-Davis mortuary, where the unidentified corpse had laid since the fatal accident, the woman announced the man was not her brother. Hundreds of persons have sought to identify the stranger but possibility of the establishment of an identity seems very remote.

Photographs of the victim were taken Monday and are to be broadcasted thru police channels. Police are working on a clue obtained Monday. A stranger provided information that a person answering the description of the victim asked him the way to Grand Rapids, Michigan, shortly before the accident. Photographs and a complete description are to be forwarded to that city, it is believed.

UNIDENTIFIED MOTORIST FLEES AFTER ACCIDENT

An unidentified motorist struck and damaged a buggy owned by Grant Rose, of Harrod, near the home of Dr. F. M. Blair of that place, Monday night and escaped in the darkness.

The More Work The Less Cost, So Say Figures

A difference of \$2.69 per front foot for the improvement of two streets was revealed in the reports of estimating boards presented to the city commissioners Monday night. The lesser rate is for both paving and sewerage on a street and the higher rate for paving only.

The report assessed the cost of paving and sewerage Fairview-av. from Carlisle-av. to Sugar-st. at \$5.536 per foot front, with a total cost of \$5,836.83.

The assessment for just paving Baxter-st. from the Pennsylvania tracks to Irving-av. is placed at \$3.23 per foot front or a total of \$32,610.38.

WARSHIPS RUSHED TO HONG KONG

U. S. Destroyers May Intervene in Chinese Row

MANILA, (Associated Press)—Five destroyers of the American Asiatic fleet left here this afternoon bound for Hong Kong. The vessels were ordered to the Chinese port in connection with the situation at Canton and vicinity. The destroyer Peary, flagship of the squadron of the fourth division of the Asiatic fleet heads the detachment which includes also the destroyers Pope, Pillsbury, Preston and Sicard. They are expected to arrive at Hong Kong Thursday morning.

Concentration of foreign warships at Canton was indicated in reports from that city last week after threats are said to have been made by Dr. Sun Yat Sen, South China leader, that he would seize the customs funds of the port unless the U. S. allotted 13 per cent of the surplus from the fund by the Peking-government.

Earlier reports that the customs house had been seized at Canton were found to be erroneous, but it was learned that a flotilla of gunboats comprised of four British, two French, two American, one Portuguese and one Japanese vessel were anchored in the harbor with the situation under close surveillance.

PINKERTON DEAD

Famous Detective Dies Suddenly at Los Angeles

LOS ANGELES—(United Press)—William A. Pinkerton, head of the Pinkerton Detective Agency of New York city, died at the Biltmore Hotel here today, five days after he arrived here on a vacation.

Pinkerton was taken suddenly ill last night. Hotel physicians were called by his secretary, J. R. Black, but his death came suddenly this morning.

His son, Allen Pinkerton, was with him when he died.

HARROD RESIDENT DIES IN BIRMINGHAM, ALA.

Word has been received here telling of the death of Mrs. Mary Elizabeth Baker, 79, of Harrod, which occurred early Tuesday morning at the home of her son, Maman Baker, in Birmingham, Ala. Mrs. Baker accompanied by her daughter and son-in-law, Mr. and Mrs. Will Irwin, of Harrod, had gone south for a two months' visit.

Surviving besides the son at whose home she died, are three sons, B. B. Baker, of Birmingham; H. H. Baker, of Harrod, and J. C. Baker, of Ft. Wayne. One daughter, Mrs. Will Irwin, of Harrod, also survives. Her husband, John Newton Baker, preceded her in death last March.

The body will arrive here Wednesday at 3:40 p. m. and be taken to the Bowersock funeral home. No funeral arrangements have been made.

KIWANIS CLUB LISTENS TO ADDRESS ON SUGAR

Charles H. Allen, president of the Farmers' Sugar Co. of Defiance, addressed the Kiwanis Tuesday noon at the Barr hotel on the subject of "Sugar." Allen declared that home grown sugar, particularly beet sugar, affords the only competition to the so-called "sugar trust" and that American farmers ought to raise more sugar and less wheat. He urged the growing of sugar beets as one of the solutions of the present agricultural problem.

3 MEXICANS CITIES TAKEN BY REBELS

Capitals of Two States Now Held by Insurgents

GUANAJUATO TOWN CAPTURED

Armies Continue March on Government Seat

(BULLETIN)

CHIHUAHUA CITY — (Associated Press) — Governor Ygnacio Enriquez, of the State of Chihuahua has been captured near Torreon by De La Huerta forces and is being held prisoner, according to word received by legislators here today. Governor Enriquez was returning to the state capital from Mexico City where he went in an effort to prevent a rupture of Plutarco Calles and Adolph De La Huerta.

VERA CRUZ, Mexico — (Associated Press) — The gunboat Zaragoza is prepared to sail for Tampico to assist in the attack on that city which is to be undertaken by the troops of Governor Lopez De Lara of Tamaulipas in conjunction with troops commanded by General Panuncio Martinez.

Advices received here say that Celera, in the state of Guanajuato north of Mexico City, has fallen into hands of rebels.

A radio message from the headquarters of General Enrique Estrada, commander of the western forces, says that the advance on the capital from this direction is continuing.

Meanwhile troops are leaving Vera Cruz for the point of concentration from which the march on the capital from the east is to be started. The advance will be along the line of the Mexican railway.

CAPITAL OF NAYARIT TAKEN

EL PASO, Texas — (Associated Press) — Disruption of communication with the interior of Mexico and application of a strict censorship have permitted but little information of what is happening in the uprising by supporters of Adolfo De La Huerta, presidential candidate, against the government of President Alvaro Obregon to seep thru to El Paso and other border points, although a number of interesting side lights are revealed.

Coincident with reports that Tepic, capital of Nayarit, has fallen to the rebellious forces, General J. Gonzalo Escobar, commander of the department comprising the states of Durango and Coahuila, was enroute with 2,000 troops from Torreon to cut off the rear of General Estrada, military officials at Juarez learned.

Reports that the Yaqui Indians at Bacalete were about to go on the warpath or that they had taken to the mountains in preparation for such action, were declared unfounded in Nogales dispatches.

The Tampico oil district is quiet, said an official statement.

REBEL VICTORY

NOGALES, Ariz. — (Associated Press) — Tepic, capital of the state of Nayarit, Mexico, has fallen into the hands of rebels, according to confirmed advices received here from Tepic.

This is the second state capital to fall into the hands of revolutionists. Jalapa, capital of Vera Cruz, was taken Saturday.

General Manuel Daigaz, commanding officer under Carranza during the latter's regime, is reported to have led the uprising of 200 men at the Federal garrison, who stormed the post in an attempt to capture it yesterday, the advices stated.

The interview was given upon the colored tile balcony of Chapultepec Castle. The president's daughter and an interpreter sat by.

21 PERSONS DIE IN RUM BATTLES

Tragedies as Result of Dry Law Enforcement In Ohio this Year are Summed Up—Seven Prohibition Agents And 14 Bootleggers Killed

COLUMBUS — (United Press) — Twenty-one persons were killed—seven of them local dry agents and 14 bootleggers and rum runners—in gun battles as a result of attempts to enforce the prohibition laws in Ohio thus far in 1923, a United Press survey revealed today.

Loss of life was heaviest along the eastern border. Eight persons were killed in Jefferson-co, where a state probe of lawlessness is under way.

Two were killed in Mahoning, another eastern tier county. Altho, most of the killing was in rural communities, Cleveland with three killed, stood next to Jefferson-co and Youngstown and Toledo and their immediate environs, each reported three killed.

A striking development of the survey was that no police officers lost their lives enforcing the dry law in Ohio during the year. Village officials charged this was due to "indifference to liquor law enforcement" in the police departments of larger cities.

ILLEGAL MEANS SUSPECTED

Chief of Police William Copeland of Cincinnati, declared they believe dry agents working under the "fee system" in rural communities often resorted to illegal means in their efforts to increase their incomes from arrests.

The survey shows the following persons killed: Jefferson-co, Mike Ventry, Frank Perrin, Charles Blinn and William Snyder, dry agents; Patsy Barrilla, Frank Damico, Mike Soldina, and John Malone, alleged liquor violators.

Mahoning-co: Dr. S. E. Conrad, dry agent and John S. March, alleged wine maker.

Cuyahoga-co: Carl Matta, dry agent and Sam Larca and Joseph Najonoff, alleged bootleggers.

Three deaths were reported from northwestern Ohio: Anthony Mayer, bootlegger, and an unidentified man in Lucas-co; an unidentified man found in a river near Sandusky. Authorities said "booze" had killed him.

Perry-co: Henry Burns, alleged bootlegger's "customer" and Steve Succash, and Bruno Butler, dry law violator.

Noble-co: C. W. Moore, sheriff. Rum wars blazed suddenly in many localities in the state, the reports show, and were responsible for many heavy losses in fires and robberies.

WINS \$2,000,000

Verdict for Husband Ordered in Webb Will Case

NEW YORK—(Associated Press)—A verdict for Charles Webb, husband of the late Mrs. Gertrude Gorman Webb, who died this fall at the fashionable Westchester-Biltmore Country club in Rye, today was ordered returned by Surrogate Foley in the contest of Mrs. Webb's \$2,000,000 estate brought by her father, S. Jennings Gorman, of Bridgeport, Conn., and four other relatives.

The surrogate, however, reserved decision on a motion to deny probate of the will and on other questions of law which will be argued next Monday. The contest was opened yesterday.

The will makes Webb the sole beneficiary, but the husband has frequently pledged himself to support his wife's wishes in the matter of numerous bequests.

The will was drawn shortly before the death of the society woman and Howard T. Kingsbury, who testified yesterday that he had prepared the document, said he had not had time to embody all the provisions Mrs. Webb desired.

3 FUR COATS OBTAINED IN BIG ROBBERY

W. Market-st Store Entered After it is Opened Tuesday

\$1,050 LOSS IS INCURRED

Door and Windows Are Found Securely Fastened by Owner

Puzzling fur robbery resembling mysterious operations of the fiction master mind, "The Gray Ghost" Tuesday precipitated police against a blank wall in the probe of the daring daylight robbery Tuesday morning of \$1,050 worth of furs from the S. Cheslow store, 112 1-2 W. Market-st, in the heart of Lima business district.

Three fur coats among the most valuable in the store, disappeared as in thin air, leaving police no clue for restoration of the missing clothing, described as follows: Hudson seal, value \$600, trimmed in gray lynx.

Alaska seal cape, value \$150, checkered pussy willow lining, half length.

Black Caracul coat, half length valued at \$300.

ROBBERY DISCOVERED

Robbery was discovered by Miss Myers, a clerk, Tuesday morning when she rearranged the cases in the furrier shortly after she opened the store for the day's business. Police were notified and started an investigation.

Mrs. Myers angle presented itself with discovery by police and Proprietor Cheslow that every door and window in the store was securely locked.

Cheslow claims he locked the windows and doors at 8:30 p. m. Monday when he closed the store, located on the second floor across from the interurban station.

"I am positive I locked the doors and windows," Cheslow said. "Police and I looked the store over and examined the windows, which showed they had not been used as a means for gaining entrance."

EXPERT JOB

Officer Laughlin responded to a call at headquarters, and after an examination he reported, "that the job looked like work of some one who knew the habits of store employees."

In the meantime police are conducting a city wide probe in belief that the furs are still in the city. Detective Keller has been assigned to examine the case in the absence of Detective Inspector Kipker, who is in Toledo.

The furs were in their cases when the store was opened Tuesday morning. Miss Myers is said to have told investigators. Police claim she was in the store constantly from 7:30 a. m. when she opened for the day until after the discovery of the robbery.

Several persons are said to have entered the store during that period and as this is the only plausible theory for an explanation of the robbery police are believed following it as a means for making an arrest and return of the furs.

TAXI FIRM SUED

Charging that injuries suffered in an automobile accident at High and Metcalf-sts, October 30 were caused by reckless and unlawful driving, Florence E. Bolton, of 114 N. Cole-st, instituted a \$2,000 personal injury action against the Yellow Taxi-co. in common pleas court Tuesday.

WATCH COMES BACK, SO COURT DISMISSES CASE

The strange disappearance and as strange reappearance of a watch and chain belonging to John Parker, colored, was recited in Justice E. M. Botkin's court Tuesday.

When the watch disappeared, Parker had suspicion where it went. He complained to authorities that Bill Allen also colored stole the watch. Constable Joe Hoyer arrested Bill, who protested his innocence.

"Steal a watch? Who, me?" Bill protested. "Never did, no way, no time."

WATER PROVIDED IN SUBDIVISION

City Provides Bonds, Interest to be Paid by Promoters

\$15,000 ISSUE AUTHORIZED
Fairfield-pl Legislation Gets Commission's Sanction

Legislation for issuance of \$15,000 in bonds for laying water mains in Fairfield pl, the Samuel Baxter Sons Co. subdivision which soon is to be annexed, was ordered by the city commission Monday night under provision that promoters pay the interest on the bonds for a certain period.

F. A. and C. S. Baxter, for the company, presented a formal petition for the issuance of the bonds and this petition was granted on terms which provide that the Baxter interests shall pay the city six percent interest on the bonds or \$300 per year, until such time as there are 75 houses in the subdivision having water connections.

ADDED TO BILLS
Under this agreement the promoters pay the interest at the rate of \$225 per year, this money being added to the water bills for each quarter. In addition the Baxter interests pay the sum of \$16 for making connections from the city mains to each house as the house is erected.

At the end of each year the city is to figure up the difference between the bond interest and the revenue, the Baxter interest to get credit for this on their yearly payment of \$300. According to the petition which the Baxters presented to the commission there are 118 lots in the subdivision all of which sooner or later will take city water.

MAKES INQUIRIES
Commissioner Breckenridge wanted to know what size mains are to be put in and the city manager said six-inch with the 10-inch main in Allentown-pl. Breckenridge wanted to know if six-inch mains would be sufficient and City Manager Bingham replied that it would because the ten-inch main down Allentown-pl is sufficient to provide water for 12,000 people at a consumption of 100 gallons per capita per day.

Another 10-inch main is over on another street and 10 years hence if the population there demands it, they could be connected with a third 10-inch main which would circle that entire property to Cable-rod with 10-inch mains, Manager Bingham explained.

FIGHT AT G. O. P. MEET THREATENS

Opposition to Cleveland as Convention City Develops

WASHINGTON—(United Press)—Rumblings of discontent over President Coolidge's designation of Cleveland as the next Republican convention city grew in volume today, as the Republican national committee met to ratify the selection.

In response to the mutterings from western and midwestern Republicans, there were evidences that a sham battle was to be staged before Cleveland was named finally. Some "insiders" on the committee indicated the battle would last for two days.

CLEVELAND OPPONENTS
With Chicago definitely out of the running, Des Moines and San Francisco are the chief contenders against Cleveland. The Des Moines delegation headed by former Senator Rawson of Iowa, is determined the selection shall not go by default. Armed with data showing the Iowa city to be well equipped in halls and hotels, Rawson intends to emphasize the political strategy of selecting Des Moines in the heat of the corn belt.

Western and midwestern Republicans polemic to the presidential preference of Cleveland as a tactical error. "Cleveland to the western farmer is 'east,'" they said. The psychological effect of holding the convention west of the Mississippi river would do much for Republican success, they believe.

There were indications that New York might make a strong bid for the convention to prolong the battle even further. The flat refusal of the subcommittee in charge of the question to reconsider the cut in southern representation in the convention was another source of worry to the Republican high command.

PASSENGER BUSINESS GOOD BETWEEN U. S. & GERMANY

HAMBURG—Passenger traffic between German ports and America continues so good that the de luxe steamers Resolute and Reliance are being continued in the service. The demand for cabin accommodations justified their retention. German emigration has not been so great in 30 years as it was in the first half of 1923. Cheap passages are in especial demand.

WIFE CHARGES HUSBAND ABANDONED HER IN 1921

Charge that her husband abandoned her in 1921, after having failed to support her over a long period of years is incorporated in a divorce action instituted in common pleas court Tuesday by Catherine Helen Bierly, against Ernest P. Bierly.

Bierly's last known address was Los Angeles. Mrs. Bierly recites that she was married to the defendant in 1912, and was dependent largely upon her own efforts for support during her married years. Prior to leaving her, Bierly withdrew a substantial sum from the bank, leaving the plaintiff practically without funds, she says.

The pair have two children, Wilhelmina, 10, and Ernest, Jr., 8, whose care and custody are sought by the mother.

FIRST AID TAUGHT MINERS
Rescue Courses Given by U. S. to 100,000 Workers

WASHINGTON—Courses in mine-rescue and first aid methods are being conducted by the bureau of mines in 35 states and Alaska. Director H. Foster Bain said today in his annual report. More than 100,000 miners have completed the courses in instruction since 1910.

"Although the bureau can say positively that widespread explosions of coal dust no longer should occur," Director Bain declared, "the fact remains that they do continue, accounting for 311, or nearly 16 percent of the total deaths in the mining industry in 1922."

"Two effective methods for preventing spreading thru a coal mine of a minor initial explosion have been demonstrated by the bureau. The first is to wet the dust so thoroughly that no dry dust remains in the mine. The second is to dilute the coal dust with shale dust, limestone dust, or other non-inflammable dust so that flame will not pass from point to point."

Gas and coal dust explosions are not the main hazards of mining, the report continues. If the deaths from falling rocks and coal could be eliminated, the number of miners killed would be cut about in half.

Director Bain cites the need of an intensified safety campaign among miners, operators, and inspectors to maintain diligence in observing the precautions which will lead to the prevention of accidents.

He recommended an intensive study of the electrical hazards in coal mining and concentrated effort to reduce the number of deaths from falls of roof and coal and from mine transportation, both of which call for further investigative work and renewed alertness by miners and operators.

CUT IN FREIGHT RATES WILL BE DEMANDED

CLEVELAND—Ohio shippers who are to attend a meeting of the interstate commerce commission January 2, will demand that freight rates be reduced in Ohio.

This was decided at a meeting of Ohio State Industrial Traffic League here following announcement that rates from Chicago to the coast were to be cut.

11,000 GIRLS AND WOMEN MISSING THAT'S SINGLE YEAR'S TOLL IN U. S.

Total of all Persons "Lost" in 1922 Put at 31,638

AS MANY NEVER REPORTED
Travelers Aid Tells of Saving Thousands From Lures

NEW YORK—(Associated Press)—More than 11,000 girls and women were reported missing during 1922 by police headquarters in 33 American cities, and approximately 900 of them had not been located by Dec. 31.

These figures were gathered by the National Association of Travelers' Aid societies of this city in an effort to estimate the number and types of persons who drop out of sight each year. Reports from 7 cities, the association said, gave a total of 31,638 men, women and children who disappeared, about 2,500 of whom were not found.

Seeking for people who disappear is a part of travelers' aid service which protects inexperienced travelers from harm by giving advice and help at railroad stations and steamship piers, according to John R. Shillady, general director of the national association.

WORKERS IN 160 CITIES
"Travelers' Aid workers in 160 cities helped more than 2,000,000 persons last year," he said, "saving thousands of girls from being lured off by designing individuals in crowded stations. The service helps all travelers, from mere information seekers to those in dire emergency. Police reports show that in New York City 2,446 girls and women were reported missing in 1922, 1,652 of whom were girls under 21 years. Chicago recorded 1,549; Los Angeles 1,020; Philadelphia 1,006; St. Louis had 798; San Francisco 471 and Detroit 311. About 92 per cent of the missing were finally located—dead or alive—but the records show that many had undergone experiences worse than death.

Large as these figures are, they represent only about one-half of the actual number of those who actually dropped out of sight at some time during the year. In the opinion of Capt. John H. Ayers, chief of the bureau of missing persons, New York city.

"People often fail to report disappearing members of their family to us because they mistakenly fear it will bring publicity upon them, when that is the last thing we want to do," said Capt. Ayers.

"Many also drop out of sight who have no one sufficiently interested to make a report." In our best judgment, we feel it is fair to double actual figures, making a total of 4,892 women and girls in New York City, of whom 3,504 were under 21 years of age.

"If the same ratio of disappearance holds good for the United States as applies to New York city, then we can arrive by an arithmetical computation at the total for the United States, which will approximate 60,000 girls who probably disappear annually. Of course, it must be understood that those are not permanent disappearances, as a very large per cent are accounted for. Our record for last year was 88 per cent found."

PADLOCK FOR ROADHOUSE VIOLATORS THREATENED

CLEVELAND—A determined effort to frustrate attempts of a bootleggers' ring, to reap a harvest in roadhouse trade has been launched by county authorities as a result of the death of Harry L. Bronstrup, son of Councilman Henry L. Bronstrup, at Broadview Inn early Sunday.

County Prosecutor Edward C. Stanton requested Sheriff Charles Stannard to supply him at once with a list of all roadhouses raided during the year for violation of liquor laws. Also, a list of those where it is suspected liquor is sold.

The prosecutor said he would apply the state padlock law in every case possible.

Sheriff Stannard told Stanton many places in the country had been raided within the last few months, proprietors arrested and fined.

LABOR PROGRAM ANNOUNCED

Gompers Tells of Demands to be Made on Congress

IMMIGRATION COMES FIRST

Relaxation of Present Restrictive Measures Opposed

By SAMUEL GOMPERS

WASHINGTON (Special)—The American Federation of Labor has no elaborate legislative program to be presented to the Congress now in session but it is vitally interested in certain great public question which must come to the attention of that body during its present short session. One of these is the question of immigration. Another is the question of an amendment to the constitution to prohibit child labor. A third question concerns the injunction process as used in industrial disputes and the usurpation of power by courts in connection with such proceedings.

The immigration question must be dealt with because the present law on the subject expires June 30, 1924. The wage earners of our country, in common with practically all of the thinking people, form a unit in holding that there should be no relaxation of our present restrictive measures. We do not want a horde of unsimilable alien immigrants. We do not want a horde of immigrants who will threaten either our standards of living or our institutions.

ENTANGLEMENTS
Apparently the one thing that can menace proper immigration legislation is the entanglement with it of proposals which are neither wise nor necessary. If tactics of that character are attempted the people of the United States may know that politics is at work to defeat the public will.

In the case of child labor legislation two successive Supreme Court decisions have nullified two successive efforts of Congress to free the children of America by statute enactment. The only road which may now be pursued is to amend the constitution.

Under the leadership of the

American Federation of Labor 17 national organizations have joined in the Permanent Conference for the Abolition of Child Labor and this permanent conference is the sponsor of a proposed amendment to meet the requirements of American childhood.

Our federation will seek of Congress the enactment of legislation that will for all time put at rest the usurpation of power by courts in injunction and contempt proceedings when such contempt is committed outside of the presence of the court.

GREAT DEAL POSSIBLE

If the present session of Congress immersed in purely political issues with a national campaign in view, can be induced to deal satisfactorily with these three vital issues, a great deal will have been accomplished.

Of course the American Federation of Labor will throw its weight into the scales for progress in connection with any measure that offers hope of progress and it will oppose any measure that seeks to trench reaction.

Labor will set itself to the utmost to support any constructive program for relief for the farmers. It will support the proposal for adjusted compensation for veterans of the World War.

It will support the movement for the reasonable modification of the Volstead act.

It will support the efforts to se-

Insure proper Lubrication

Many cars require lighter engine oil for winter driving. Consult the Polarine Chart of Recommendations and do not neglect to change if necessary. Too heavy lubricants fail to protect bearings adequately in cold weather. Avoid excessive "racing" when motor is cold.

Use the right grade of Polarine

To give steady, dependable, all-season service your automobile, truck or tractor must have the right lubricant to protect every moving part. And the complete line of Polarine Motor Oils and Polarine Transmission Lubricants and Greases, together with the Polarine Chart of Recommendations by which they are sold, makes it easy to be sure that you are using the right oil every time.

The five grades of Polarine Motor Oils provide a correct oil for every type and make of Motor, the grades which require it being sufficiently cold tested to flow freely in cold weather. Polarine Transmission Lubricants meet the requirements of all speed gears, universal joints, differentials and all bearings. Polarine Cup Grease is specially refined for grease cups and grease guns.

Polarine Oils and Greases successfully combine the essentials of perfect lubricants and the quality of these products is backed by a half-century of refining experience.

Consult the Polarine Chart

The Polarine Chart of Recommendations specifies with scientific accuracy the one grade of Polarine that will lubricate properly each part of every make of car. It combines in convenient form the experiences of thousands of motorists and the results of years of exhaustive study and experiments. Its recommendations have been time-tested in the hard school of actual use. It is a thoroughly trust-worthy guide to longer and more trouble-free motor service.

CITY "FIRES" FIRM WHICH QUIT JOB

HAS \$287,000 FOR PROJECT

Will Escape Loss if Estimate of Bondsman Stands up

Orders \$100,000 Issue to Wind up Jones Co. Sewer Work

Termination of the Fred R. Jones Co.'s employment as contractors on the outfall and intercepting sewer job and authorization of a bond issue of \$100,000 were steps taken by the city commission Monday night to settle the muddle and get the job completed.

Following a conference Monday between City Solicitor Paul Landis and B. F. Darling, engineer in charge of sewer work, the solicitor presented the ordinance for a bond issue of \$100,000. Early last week it was announced from city hall that a bond issue of \$80,000 would be sufficient to enable the city to finish the job.

HAS LEEWAY

City Auditor C. H. Churchill presented a fiscal certificate showing the city has sewer bonding leeway sufficient to allow the issuance of \$100,000 in bonds.

With the \$100,000 bond issue authorized, the \$170,000 in cash left from the original bond issue for the work and \$17,000 retained from the amounts due Jones, the city will have a total of \$287,000 cash with which to complete the contract.

It was estimated by representatives of the Royal Indemnity Co. of New York, bondsmen for Jones, when they were here last week that it will take \$260,000 to finish the job. If it takes no more than this the city will have a leeway of \$27,000 with which to pay interest on the bonds and against the claims of material men against the Jones company. If the city should have to pay those claims, officials said.

The bonding company has a bond of \$170,000, running to the city, on which the city will be able to collect, by court action which it is understood will not be resisted, when the city has completed the job officials said Monday night.

WILL NOT LOSE

City officials figure that if they can get the work done for \$260,000 the city will not lose because the \$187,000 in the bank plus the amount of the bond, \$170,000 a total of \$357,000 will cover the entire cost of finishing the job and give the city a balance of \$97,000 with which to pay off the \$100,000 issue voted Monday night, and any claims for which the city is liable while Jones had the contract.

Action taken by the commission Monday night is the last step in severing the connections of the Fred R. Jones Co. with the city's sewer work, officials said.

As soon as the bonds are issued and sold the commission will ask for bids for finishing the job and work likely will be started early in the spring, unless some unforeseen event comes to disrupt present plans.

DIRECTORS TO MEET

Board of directors of the Y. W. C. A. will meet Wednesday night at the home of Mrs. H. W. L. Kidder, of 728 State-st. rather than at the association rooms as was formerly announced. Mrs. H. M. Crawford will have charge of the meeting in the absence of Mrs. D. J. Cable, who is in Baltimore.

DEAR FRIENDS OF LIMA AND VICINITY:

Tomorrow marks the close of our first year in business, and we wish to take this opportunity of thanking each and every one of you who has made this a prosperous year for us. It has been a real pleasure to have your business and we sincerely trust that we have rendered you a real service with each transaction.

In order to express our appreciation of your business, we are holding tomorrow our first birthday party, at which time our prices will be lowered for the day to such an extent that if you will note a few of the bargains on either side of this, you will agree with us that this is indeed the place to do your Christmas shopping.

With a few exceptions we have placed discount on our entire line, and we want to invite your attention to a few of these.

All Royal-Rochester Ware will carry a twenty per cent discount for this day. This line includes many beautiful and useful articles such as casseroles, baking dishes, both covered and uncovered, pie servers, bread and cake trays, crumb sets and lots of other articles of similar use.

Our entire stock of electrical appliances with the exception of washers will carry the same discount. This comprises toasters, irons, curlers, table stove and electric bulbs. On electric washers for this day we will offer these at a discount of ten per cent and if desired can arrange terms.

Any stove, gas or coal, (excepting Hotrolas) for either cooking or heating, will be delivered any place in Allen county at ten per cent less than the regular prices.

It is our endeavor to give you real honest-to-goodness bargains and if we do not mention here what you need, just ask any of the boys on the floor.

As we mentioned above this year has indeed been a real pleasure, and we are sincere in our thanks to you. If you have any grievance which has not been adjusted entirely to your satisfaction, no true could be better than this, our birthday, as it is you we want to please.

Hoping that we may have the continued pleasure of serving you through the coming year, we are,

Yours most sincerely,

THE BAHR HARDWARE COMPANY.

There are a few items which it is impossible for us to make any lower prices than regular. These items include Community Plate, Staple Hardware, such as nails, bolts, screws, etc., and our builders' line.

SLAYER TO FACE SANITY TEST

Man Who Killed Wife, Cut Off Head to be Arraigned

MILWAUKEE—(Associated Press)—The first definite action that will be taken today in the case of the criminal insane or to a trial on a charge of first degree murder will be taken today in municipal court when he will be arraigned for the killing of his wife, Ora. Tompkins has confessed that he killed her and buried the headless body in an isolated spot near the city limits. When Tompkins is brought into municipal court, George A. Shaughnessy, district attorney, will ask the appointment of a commission to inquire into the sanity of the former normal school teacher, now a wealthy real estate dealer.

Miss Florence Witmeyer, former normal school student and former public school teacher, who was arrested on a statutory charge as a result of the murder, was freed yesterday. Tompkins, on \$500 bail yesterday, repeatedly referred to Miss Witmeyer as his "inspiration." He first met her, he said, while she was his pupil at the normal school here.

TWO TRAIN CREWS ARE QUIZZED IN WRECK PROBE

ERIE, Pa. — Ten railroad men, the crews of two sections of the New York Central's Twentieth Century Limited when the fast train was wrecked on a grade crossing near Forsyth New York, early Sunday morning, with a loss of nine lives came to Erie today to face officials of the road and, tell what they knew of the fatal crash. Among these was Charles Patterson of Buffalo, who, for two score years has been at the throttle of many fast trains. His record was clean until Sunday, when, during the driving rain and a heavy fog, his train plowed into a section of the limit which had halted momentarily to investigate an automobile accident. Road officials have stated that Patterson drove his train past warning signals.

BURKE URGED TO ENTER RACE FOR GOVERNOR

ELYRIA — State Senator J. F. Burke Elyria, will be the honor guest at a banquet here tonight when a petition signed by scores of Elyria and Lorain-co citizens will be presented to him, asking him to announce his candidacy "unequivocally" for governor of Ohio on the Republican ticket. T. T. Robinson, chairman of the citizens committee, which inaugurated the movement of Burke for governor, said: "The citizens of this vicinity are anxious and unanimous in their desire for Burke's nomination. We expect him to make some reply tonight when we present the petition to him. We know that the state needs at this time the character of business administration and ideals which Senator Burke would give it."

MARRIAGE FORCED BY THREAT, WIFE CHARGES

CLEVELAND — A strange story of love at first sight, with a marriage forced within a few days by threats of death, was told to police Prosecutor Kovachy by Mrs. Percy Brittain, 25.
She claimed her husband met her in Akron June 11, and threatened on June 15 to kill her unless she married him. Out of fear for her life she said, she married him and came to Cleveland with him.
She charged that after the wedding he claimed she had ruined his life and took her back to her sister, June 16, and since then has seen her only occasionally and threatened her again if she should take any legal action. Kovachy issued a warrant for the arrest of Brittain on charges of assault.

POLISH ARMY COMMANDER RETURNS TO NEW YORK

BOTH DARWIN AND BRYAN WRONG, EXPERTS LEARN FROM TRINIL MAN

Paleontologist Reveals New Aspect of Gobi Find

SEES APE AS OUR COUSIN

Long Kept Secrets of Skeleton Shed New Light, is Claim

PEKING. — (Associated Press) — The story of what some prominent scientists believe to have been the first human ancestor of the human race—how he probably gained his livelihood, wooed his wives, reared his children and got his recreation—soon will be told to the world by Prof. Dubois, famous Dutch paleontologist.

This revelation is to come principally as the result of efforts of Dr. Henry Fairfield Osborn, curator of the American Museum of Natural History who is now in China directing researches on the bones of Gobi where so many ancient fossils recently have been found by excavators for scientific societies.

Dr. Osborn declares that the theories of both Darwin and certain of the Darwinists were out of date as a result of modern discoveries. The ape, he declared, is not now supposed to be the ancestor of man, but in all probability a cousin. He holds that the theory that both man and the ape probably have descended from a common type of animal.

How Dr. Osborn p. vailed on Professor Dubois to make public his findings in connection with the discovery some years ago of the bones of the Trinil man in Java were explained recently by the American scientist in a lecture before men of science in Peking.

The Trinil man of Java, known to science as the Pithecanthropus Erectus, or upright man-ape, is supposed to antedate by thousands of years any other fossils of man ever found. Discovered by Prof. Dubois more than 30 years ago the details of the find have been kept virtually a secret. It was known, the curator explained, that the skeleton largely reconstructed, bore a resemblance to both man and the higher apes, but in many respects different from both.

Something of the supposed age of the Trinil man is to be had from the Osborn's theory, which is shared by other paleontologists that the youngest of the presumably pre-human or sub-human ancestors of man whose fossils have been found is the Heidelberg man.

Bones of the Heidelberg man were found in the drift of the Neckar river valley in Germany and are estimated to be at least 400,000 years old. Still older are the bones of the Pithecanthropus man whose fossils were found in the river drifts of Sussex, England. Yet older are the bones of the Foxhall man, also found in England. But oldest of all the bones of the Trinil man of Java.

So far back in time have scientists assigned the place of the Trinil man that he is supposed to have lived in those far yesterdays of the earth when life itself was hardly out of the experimental stage in Nature's laboratory.

It was in Asia, either on the high plateaus of what now is China or possibly south of there in the warmer lands of India that mankind had its origin, in Dr. Osborn's opinion. Uplands of China and especially the Gobi desert, afford to science the world's greatest deposits of bones of bygone life that has been found, he said. His theory is that the original inhabitants of North and South America were descendants of Asiatic races that moved across land bridges which in past ages connected the eastern and western continents.

SERIES OF HOLDUPS STAGED AT CLEVELAND

CLEVELAND. — Another series of holdups was staged Monday night by armed bandits who robbed two drug stores, a clothing store, grocery store and attacked a man near his home.

An attempt to rob another drug store was thwarted when the manager alerted two gunmen. Sounds of police, directed by Inspector Stephen Murphy, failed early today to apprehend any suspects in the robberies.

AMERICAN PINE IS USED IN REBUILDING JAPAN'S QUAKE DEVASTATED ZONE

By CLARENCE DUPOSE

Rheumatism and Stomach Trouble Are Relieved by the Plant Juice

HE HAD NEARLY LOST HOPE

Many people say this surprising herbal medicine, Plant Juice, brings an improvement from the first few doses. Just recently, Mr. David Trainer, of Roanoke, Indiana, gave the Plant Juice Man the following testimonial:

MR. DAVID TRAINER
"I had been in bad health for years and had taken many different medicines and treatments but did not get any better. But I will say that I began to improve from the first dose of your Plant Juice medicine and now, since I have taken three bottles, my friends tell me I look like a different person," said Mr. Trainer.

"I suffered from the rheumatism in my shoulders and arms and legs. My stomach was out of order and so bad that the lightest food would sour and ferment in my stomach and cause me to have violent gas pains. My liver and kidneys were disordered and I always had a pain in my left side which I was told was caused by my spleen. I was so constipated that I would have to take the strongest kind of laxatives and I had gotten to the point where I had just about lost all hope."

"My friends begged me to try your Plant Juice medicine and I am surely thankful now that I did so because I am not only looking like a new person but I feel like one. My liver, kidneys and stomach seem to be like new. I have been relieved of those rheumatic pains. I do not suffer now from the constipation. Your medicine has certainly been worth its weight in gold in my case and I gladly endorse it."

Plant Juice is sold in Lima at Hunter's drug stores, 49 Public Square, and Main and Wayne-sts; also at the Argonne drug store, opposite Post Office. — (Adv.)

ments have landed since the disaster and still more will be sent.

Only temporary wooden shacks can be built now. It will be months before permits for permanent structures will be issued. The so-called "temporary" shacks will, as a matter of fact, be permanent in many cases and in others will last for several years.

Half a million houses must be built in Tokio to replace the destruction of fire and earthquake. The first angle of this great reconstruction is the big market for American lumber that this has created and, apparently, will

continue for some time.

The next, from an American trade standpoint, seems to be the big field that ought to remain a long while for a great variety of American materials and products—heat, lighting and various kinds of household equipment, structural materials of all kinds, automobiles, telephones and railroad equipment.

Construction, electrical, steel and machinery men expect their lines to do the biggest immediate business in selling to Japan. But it is also believed that an increased market for a wide range of American manu-

—clothing, toilet articles and so on—factured stuff will be found in Japan and preparations are being made for extensive advertising campaigns in Japan by American firms anxious to introduce their products in this country, or to increase the popularity of articles they sold here before.

RUM BATTLE IN PROGRESS

Between Dry Agents and Smugglers Along Coast

LANDING MADE DIFFICULT

Aviator Is Employed by Liquor Men

NEW YORK—(Associated Press)

Smugglers and dry forces today fought a second battle of the rum row, while New York watches.

A score of liquor carriers, coming from the Bahamas and other points where distillation is lawful, have themselves blocked, at least temporarily, from landing their supplies in quantity by the coast guard.

These land forces are what are keeping the smugglers most worried at present.

Highways and byways leading inland from the wet spots on the coast are under constant patrol by armed operatives scouring the countryside in automobiles.

But the smugglers are resourceful according to the latest reports received by the New Jersey state police. They are employing an aviator to fly three or four times a week over the coast, charting the shifting positions of the vessels.

TRANSPORTATION DIFFICULT

Smugglers, with raiders, aided by hands of hijackers constantly robbing liquor caravans, transportation of liquor has been extremely difficult. The fact that all is not going all in bootlegging is being pointed out in almost every coast article.

Prices have soared. Two weeks ago imported Scotch whisky was being offered along the row for \$14 a case, Canadian rye, less plentiful, went begging at \$16 a case. Two weeks ago the land runner paid the bottle fishermen \$24 a case for the Scotch and \$56 for the Canadian rye—the ship price plus \$10 a case for the offshore smuggler.

Today the price aboardship was reported to the state police as: Scotch \$53 a case; Canadian rye \$40. Shore prices were quoted as Scotch \$70, Canadian rye \$120.

SAFE ROBBED

DAYTON — Amateur scogs went into the safe in the office of the Rieck Sheet Metal Co. After laborious work, which must have taken several hours they got \$40 for their trouble. Police think they have a clue to the perpetrators.

KILLED IN FALL

CALDWELL, Ohio. — Charles Reed, 61, farmer, while walking to his home last night, misjudged a step and fell over a small embankment at the roadside. He died shortly afterward from a fractured neck.

OBITUARY

Mildred Yethe Rudy, daughter of Mr. and Mrs. Wm. James Clyde Rudy, born in Lima, O., March 11, 1903, departed from this life September 11, 1923, age 20 years, months and 7 days. She is survived by her father and mother and a host of relatives and friends.

She was baptized and taken to church on Easter Sunday at the race M. C. church during Brother Johnson's pastorage. And was always ready to attend church whenever the opportunity was given her.

She has gone and left us Mildred. And we miss your smiling face. But we know you went up Yonder, To a sweeter, brighter place.

Our hearts are filled with sadness, Because we loved you so. At God wanted you in Heaven. So we had to let you go.

At we hope to meet you sweetheart, When it comes our time to go; And you wait on just before us, To show us the way, you know.

He did not know you were going to leave us, even though you told us when you pointed up yonder, to where you was to go. Oh! we did not know dear Mildred, that God's angel had come, until you kissed farewell to mother, and then He took you home.

Rest be thy rest, dear Mildred. It is sweet to call your name, Life we loved you dearly, And in death we do the same.

Two Pays In One Will Adorn City Hall Xmas Tree

All city employees will get the full amount of their December salaries by the middle of the month, under provisions of authority granted to City Auditor C. H. Churchill by the city commissioners Monday night.

In other words, instead of having two pay days in December all city employees will have but one pay day and that will be the first one when they get the entire month's salaries. The date will be about Dec. 15, Churchill said.

Commissioners received and filed the November report of the city auditor, showing the balances in each of the five funds. They are sufficient to meet all salaries due for December, the report shows. The balances, previously published in The Lima News are as follows:

General, \$5,764.63; health, \$1,654.42; public safety, \$1,390.15; the commission issued \$4,000

bonds this month for salaries in the public safety department also; public works, \$2,529.56 and water works, \$4,274.50

JOHNSON'S HOME TOWN FORMS COOLIDGE CLUB

SACRAMENTO, Calif. — Supporters of President Coolidge in his campaign for the Republican presidential nomination yesterday organized what they declared to be a statewide movement in California for their candidates, with the formation of the Republican League of Sacramento in this city, where Senator Hiram W. Johnson was born.

Eighty-two similar organizations have been formed in California and many others will be listed after a state meeting of Coolidge followers to be held in San Francisco tomorrow, State Treasurer Charles G. Johnson told the league members.

Republicans in attendance at the organization meeting of the league which started out with a membership of 168 voters were emphatic in their declarations that California will send a delegation to the national convention pledged to Coolidge.

FLAMES TAKE TOLL OF \$25,000 AT GREENVILLE

GREENVILLE, Ohio — Loss of \$25,000. It was estimated today, was caused by a fire which threatened to destroy an entire city block here last night.

The blaze is believed to have started from an overheated oven at the City Restaurant and Bakery. Stocks of the Harrison Dry Goods Co. and the Maybrum Dry Goods Store were destroyed.

Firemen checked the flames after a battle of several hours.

GREAT GROWTH IN BUSINESS SEEN

Continued Prosperity Forecast by Western Financier

STEADY INCREASE NOW ON

Frisco Docks Congested With Shipping, He Declares

(By ROBERT A. DONALDSON.)

SAN FRANCISCO, — (United Press.)—Business, industry and ocean-going commerce on the Pacific coast will continue to show increasing prosperity during the coming year, in the opinion of Colbert Coldwell, financier. The past year has been the most prosperous in the history of California, he declared. "San Francisco's docks are congested with shipping, both incoming and outgoing," Coldwell said. "The volume of business handled thru the Golden Gate, particularly to Oriental ports, is larger than ever before. It is showing a steady gain, month by month."

"Real estate is booming. Sales in all parts of the state are mounting to a volume never before equalled."

BANK CLEARINGS, building permits and receipts of the retail trade have shown steady gains. Industries are prosperous.

"The farmers of the state during the past year, did not get adequate prices for their crops, but this condition was not peculiar to California, being true of the farmers in general throughout the country. The

buying power of the farmer is low, but there are many indications that it will improve somewhat during 1924.

"The past year has been a banner one for tourist trade. The state's large cooperative marketing concerns did not obtain record prices for their crops, but nevertheless, will close their books with substantial profits in practically all cases. These cooperative organizations are now engaged in stabilizing and extending their markets to absorb increased production, rather than in trying to obtain marked price increases. Special attention is being paid by many of them to foreign markets."

"Every indication for 1924 points to a potentially a most prosperous year."

AGREEMENT ON WAR DEBT PLAN IS BELIEVED NEAR

WASHINGTON — An early agreement on the proposal of the reparations commission for a conference of experts on Germany's financial situation was foreshadowed in diplomatic circles here today. These advisers stated France and Belgium virtually have agreed to appoint experts to the inquiry under conditions that will afford the proposed conference a sufficiently wide scope to make it practicable. As a result of this development, American participation is now hoped for in informed quarters.

Altho a high American official states the plan of the reparations commission is not dead and that this government still is studying the proposal, the cooperation of this country in the conference is not at all assured. An announcement of the American attitude is expected soon from the state department.

PROPOSES WORLD UNIVERSITY

Spain Gets League of Nations to Take up Proposal

GENEVA — (United Press.)—The secretariat of the League of Nations has just placed on the agenda of the 1924 assembly of the league the proposition of the Spanish government for the creation, under the auspices of the league of an international university.

One of the great advantages which Spain insists such an institution would have would be the granting of diplomas and degrees that would be recognized in all countries belonging to the league. In other words, there would be internationally diplomas and degrees, instead of merely local ones issued by the various universities of each country and which very seldom, if ever, are recognized by the universities of other countries.

However, Spain also plans that the university should become one of the most famous and important in the world thru the selection for its faculty of the most distinguished scientific personalities of the entire world, regardless of their nationality.

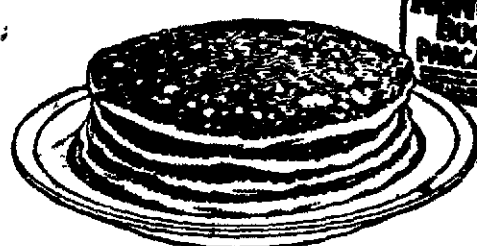

The Spanish project provides that the university should be established at the seat of one of the four leading universities of the world—namely, either at Paris, Salamanca, Oxford or Bologna, with provision, however, that the league's international university shall be completely autonomous and with full academic jurisdiction and freedom.

The initiative for this project was taken by Spain on the grounds that Spain and Spanish culture has founded more great universities in the world than any other country. In the event that the 1924 assembly of the league accepts this project, the keenest competition will exist as to which one of the four great universities mentioned as a seat for the university will secure the plum. The principal contest will be between Salamanca and the Sorbonne.

For as little or as much as you wish to spend

Opposite each name on your Christmas list, jot down the amount you wish to spend.

You will find that there are Eversharp and Wahl Pens which so closely parallel your figures that you can give this favorite pen and pencil to everyone on your list.

Few gifts offer so much in beauty, pleasure and usefulness. Eversharp is America's favorite pencil—and its features can't be copied. Only Eversharp has the rifed tip that holds the lead free from all slip or wobble. Look for the automatic index, too! And

the eraser and extra leads which are found under the cap.

Wahl Pen in gold or silver matches Eversharp in design. The all-metal Wahl Pen is a truly wonderful fountain pen improvement. It can't crack or split. It holds more ink. It is more beautiful. And it will last a lifetime.

To those who have Eversharp, give the Wahl Pen that matches it. And vice versa. To those who have neither, give both. In the velvet-lined gift box. Look for the name on each. Eversharp is \$1 to \$50; Wahl Pen is \$4 to \$50.

SOMETHING NEW!

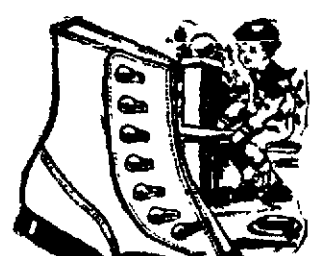

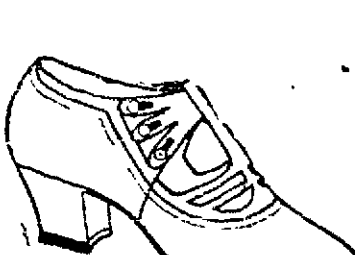

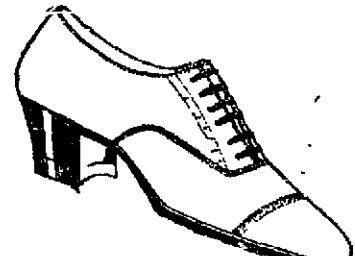

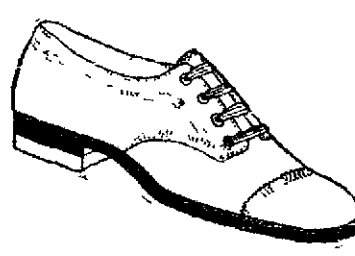

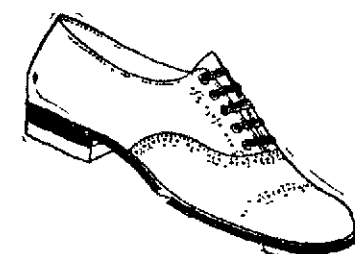

The Miniature Set

A real Eversharp and a real Wahl Pen in a diminutive size that can be carried on the end of a watch chain, ribbon or in the smallest pocket. Ask to see them. They give the same perfect service as their larger brothers. The tiny Wahl Pen will write 1200 words at a filling. You can't give a more original gift—nor one which is more useful than the Eversharp and Wahl Pen miniature set.

BUCK IS PASSED AGAIN

RESPONSIBILITY these days along all lines where public officials are called upon to shoulder it, appears to have developed a new—yet old—game, that of passing the buck.

A conference of state executives called by Governor Pinchot of Pennsylvania, is a striking example. The attempt made to assure the public honest anthracite coal at an honest price has gone the way of many other questions of equal importance. The state executives met, they talked and—adjourned.

The parley was barren of results, because it degenerated into a buck-passing game, the very thing Governor Pinchot declared he desired to end, when he issued the call, after the national administration had passed the buck to him.

It was Pinchot's plan to enlist the aid of the governors in putting up a fight for clean coal and fair prices. Federal authorities were asked to set up coal standards and establish machinery for regulating the industry. As a final resort, he endeavored to have created a joint commission of state executives to regulate the industry within the states.

Growing out of the conference was a sentiment that Pennsylvania could handle the situation, if it desired to do so, as that state has a monopoly on anthracite production. The conferees said as much, packed up their grips and returned home, leaving the unwanted child still howling on the Pinchot doorstep.

The parley having accomplished nothing, the coal barons are probably chuckling over the situation. Who knows, perhaps they so manipulated the thing that like a paralyzed mule, the kick was taken out of it.

YOUR TIME

YOUNG men who are wasting their time should read and ponder the following, written some 200 years ago by the philosopher, Voltaire.

"Time is of all things in the world the longest and the shortest, the quickest and the slowest, the most minute and the greatest, the most neglected and the most regarded—without which, nothing can be done, which devours all that is little and gives permanent life to all that is great.

"Nothing is longer than time, because it is the measure of eternity. Nothing is shorter, because it is insufficient for all our plans. Nothing is slower for him who waits, nothing more rapid for him who enjoys.

"Time stretches out to the infinite in greatness. It is infinitely divisible in littleness. All men neglect time. All regret its loss. Nothing can be done without time. It wipes out all that is unworthy of posterity, and immortalizes great things."

The procrastinator, who habitually puts off until tomorrow the things that should be done today, will read Voltaire's bit of philosophy concerning time and reflect: "A fine sentiment, swell piece of writing."

That man is doomed to go thru life BOSSSED.

The man who later will be the procrastinator's BOSS will ponder Voltaire's philosophy, recognize it as a red-light warning, and redouble his efforts to make hay while the sun shines.

The 15 most important years in a man's life are between 20 and 35. It is in these years that man arrives at the fork of the roads and goes ahead either to failure or success.

Many there are, who seem not to get started toward success until after 35. But the foundation of their success was laid back in the years of early manhood. So guard your time, get the most out of it. Once spent, it is gone forever.

TIME IS OPPORTUNITY.

NATURE CARES FOR US

LIZARDS, living in dark caves for thousands of years, became blind. Their eyes shrank and disappeared under the skin. Dr. Paul Kammerer, Austrian biologist, exposed several generations of these blind lizards to red light. Gradually they "grew" eyes and could see.

Nature eventually adapts all forms of life to their environments. She changes them, giving new organs and shapes as needed and taking away what isn't needed. This is a natural law, and locked up in this law is the reason people have troubles and joys. Everything has a definite purpose. Nothing is futile in our universe.

O O O O O

Thither towards the towns, to meet a few of import, altho at the post saw Ben Altschul and Ben Gramm.

Another of those grisly days, which make nails seem appetizing food. All the morning, at this and that. Busted now, and bored then. So out, to a barbery. Where heard many interesting things. Some very practical. Like, if you have a Christmas savings account, it makes shopping so much easier. And all that silly sort of thing. Albert, good philosophy.

Lunched, at The Congress. Seeing Jimmie Galvin, the steel king; Homer Hughes, the diamond merchant, and Frank Cunningham, the banker. At the cheese stage, came M'sieur Wilson Hughes, and passed the time of day. Out, to a continued rain. The brick layers on High-st pursuing as the rain played no part in their gay lives.

To my chiropractor's, and while there, in the entree hall. Came rich farmers' wives, from the eastern part of the county. The discourse was on a daughter, named Jenny. Who is no good at all at housework. A willing lass, who cuts the wood, milks seven cows, skims the cream, now selling at 51c, tho they got but 40c last week. Jenny doesn't mind washing with the new machine. And she beats carpets as well as any of

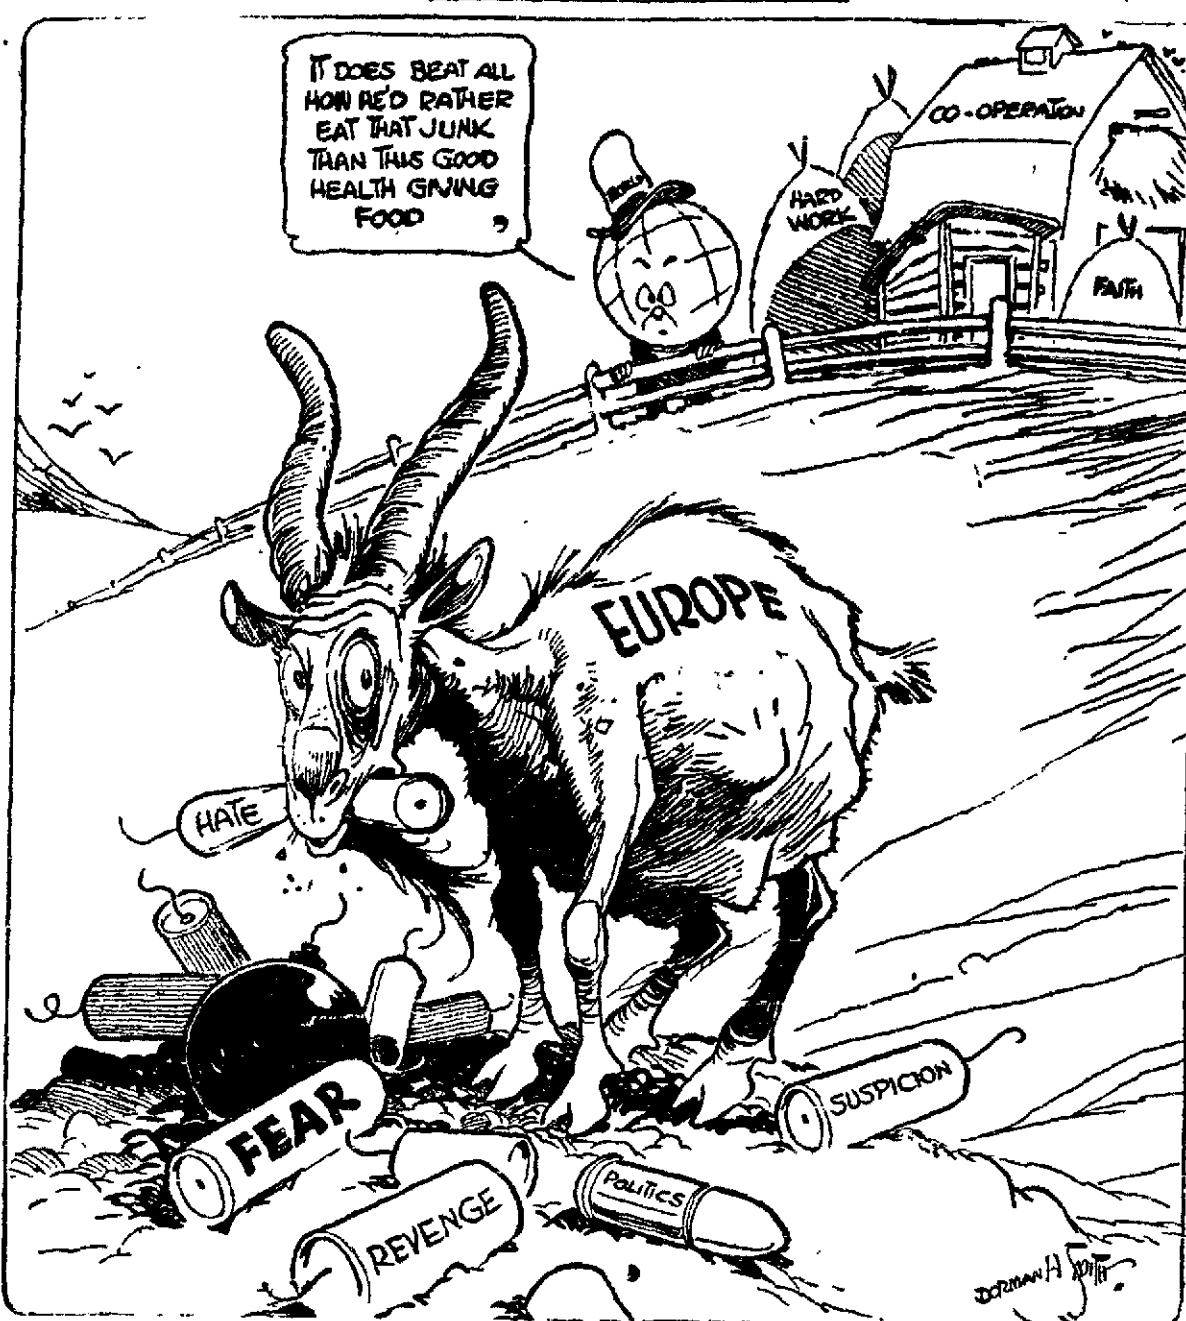

the farm hands. She is also good with her older sister's three babies. Albert, as a real worker and helper with things on the farm, she is not like Carrie was. And we do pity the man who marries Jenny. Probably end in the poor house.

In the late afternoon, out to see Jimmie, who has moved his class room hours up from four to four thirty. And there had a wash, needing no trim. Saw the new chef, who looks able, and do hear they may add additional baths. To Mac's, for a carton of fags, and glanced in at the cinema, which looks thrilling. Must go tomorrow night. Canvassing my Christmas wants, do find a ton of Pocohontas will be very acceptable.

Dined, on a menu, especially hand picked by my wife, poor wretch. Who aided and abetted by a good flow of semi-natural gas, put up the finest spread you ever did see. She led off with a bisque soup, with ficed celery and radishes; the joint was leg o' lamb, with creamed asparagus and potatoes au gratin. For the sweet she offered a peach cobbler, very appetizing.

Having done this, I invited her to a cinema she had seen in Cincinnati. Which put both of us in ill mood. So, having started the day with a peeve, there it ended, likewise. And grumpy, early to bed.

The world may be small, but its people shouldn't be.

Mussolini's still running Italy but we don't know where to.

Austria is doing nicely, considering her bad environment.

Rumania lives next to Russia. In spite of it being a bad neighborhood rents are high.

They are opening Tut's tomb in Egypt. Bootleggers will claim that is where they got it.

Argentine frigorificos have closed. That's what they call meat packers. We call ours worse.

Czechoslovakia still has her independence, but she continues getting harder to pronounce.

Dimitroff is still making faces at Bulgaria. He may change his name to Daniloff any day.

Belgium's tired of backing up the French. Only thing she can get out of the Ruhr is herself.

Poland has cut down government expenses to even less than twice the amount they should be.

Japan is recovering from her earthquake. The more ignorant still think it was an election.

Portugal's mad about a cable landing. Wants to know if the world takes her for Portuguese.

THE FLAMMING BEAK

With the first touches of cold weather the ever blooming proboscis breaks into a warm and radiant glow. The colder the weather the warmer the radiance of the bloom; many a poor hare brained creature goes shivering thru the winter in sheer no account undies wondering why she is doomed to display upon all occasions a brilliant scarlet nozzle. The remedy for this as a nice union suit of light weight all wool (or that which passes as such nowadays) or wool and silk mixed "balbriggan" with stockings of similar material.

Practically, wool is the most satisfactory material for winter underwear; the modern knitted porous material which I call balbriggan (no special brand), is porous enough to permit free evaporation of perspiration, is not irritating or itchy like the old time flannel underwear, and if the proper weight is selected to meet individual requirements—as comfortable without being too warm.

Young persons who spend much time indoors should select the lightest weight; elderly persons or those much exposed in the open should select a medium heavy weight. Indoor workers should always bear in mind that they are wearing underwear for comfort, not to keep warm; if one selects the right material and weight of underwear one may throw off or put on outer wraps or coats to suit any whim or freak of weather. The main advantage of wool over cotton or linen for underwear in the colder season of the year is not that the wool is warmer, but that wool is a slower conductor of heat; a suit of such underwear therefore protects the circulation against the strain of a thousand sudden reactions daily as we plunge from the cold air bath outdoors to the warm air bath indoors, and from the warm into the cold again.

Silk is even better than wool, being a lower heat conductor than wool.

JUST FOLKS

—BY EDGAR A. GUST—

WINTER NIGHTS
When old winter sets in,
Then the happy times begin.
"Happy times," with blizzards howling
And the skies a sombre gray?
"Oh," I think I hear you pleading,
"It is summer time we're needing,
With the roses all in bloom,
To be happy thru the day."

Let the blustering blizzards blow,
And the path be deep with snow,
We'll sing our songs together
And make merry round the fire;
We'll grow closer to each other,
Father, mother, sister, brother,
And we'll revel in the pleasures
Of which mortals never tire.

With a fire upon the hearth
We can manufacture mirth.
We can drown the north wind's
meaning.
With a flood of simple song:
And, disdainful of the weather,
We can romp and play together,
And the bonds of love shall tighten
Tho the winter may be long.

When old winter settles in,
Then the nights at home begin.
Nights that snow no hint of danger
But are sweet with mirth and play;
Nights together—father, mother,
Little sister, happy brother—
Finding all the joy that's needful
In the best and truest way.

THIS LITTLE WORLD

NEW ORLEANS

(BY MASON DIXON)

NEW ORLEANS, La. — (Special) Beside a rickety wharf just below New Orleans, a crowd of bright colored gamblers, very black. One ducks the other head and all, under the chocolate surface of the Mississippi. The river ripples solemnly out to sea, and from the crowd there is a moaning, singing noise as an answering from the Jordan. A negro baptizing is in progress.

New Orleans this week is observing the thirty-fifth anniversary of its first real bathtub. Up to that time,

water was furnished from cisterns and wells. The first water main system and the installation of the first hot water heating system in New Orleans occurred 35 years ago. New Orleans now has 694 miles of water mains, 500 miles of drains and 566 miles of sewers.

In the glare of an unshaded high-candle power electric bulb in a little sidewalk shop in lower Canal street, "Professor" George Connell practices his profession. Around him, on the walls of "Professor" Connell's operation" room are highly colored figures. Nude dancing girls, dragons, anchors, ships, hearts pierced with arrows, flags of all nations and other symbols.

In front of him sits a brawny seadog, his bare forearm on the practitioner's knees. His eyes are watery, perspiration drips from his face, and he chews tobacco assiduously. With electric needles, and indelible ink of red and blue "Professor" Connell is transferring an original design to his patron's arm. It is the likeness of a woman kneeling by a grave, on which is a rough cross inscribed: "Rock of Ages."

"They are all getting that way now," says "Professor" Connell. The old stuff don't go any more. The tough men of the sea now think more of emblems representing mother and religious success."

Miss Lydia Belden, talented and at-

tractive New Orleans society girl, along with other debutantes has gone into business. She is buying second-hand golf balls, painting them and

selling them to golfers at the Country clubs. She admits she is moping up.

(BY GERTRUDE GILLHAM)
PRESENTING Norma Talmadge in "Ashes of Vengeance," the production appearing at the Sigma Theatre, Joseph M. Schenck has given the screen a "bigger and better" picture—an excellent play, well acted and magnificently staged.
The film is a historical romance, but it is unique in that the characters are human and appealing, while the liberties are taken with history. It is unique too, in that the background is the latest word in dramatic and picturesque setting, not for once do the backgrounds obstruct the story. The magnificent settings are there because the locale of the story is faithfully reproduced.
The thousands of extras sweep across the scenes in those massive settings in incidents related to the story. There is an abundance of clashing swords, slashed doublets, court beauties, swashing horsemen—but it is the story, a moving, heart appealing story that is pre-eminent.
It is the story of a love that conquers pride and hereditary hate telling of a Huguenot noble, Rupert de Vreux, who, to save the life of his sweetheart, Comte de la Roche, for five years, and who is made to feel his lowly position by the haughty sister of this enemy, Yolande de Breux, played by Norma Talmadge. He saves her invalid sister from the attack of a wolf, and later saves her from maddened soldiers who seek the life of the despotic Duc de Tours, whom she shields in her uncle's castle. Romance buds, but Yolande resists the call of her heart, ever reminding herself of Rupert's former sweetheart. But later she learns that her sister had proved faithless, and secures the release of Rupert from his obligation.
Norma Talmadge plays the complex part of the adamant aristocrat with conviction and appeal. Conaway Tearle and Wallace Beery, in strongly contrasting roles give exceptional performances in support of the star.

Members of the executive committee are J. C. Begg, W. M. Crawford, A. E. Campbell and of the finance committee are Charles W. Allen, Charles A. McCrate and Edward Laibe, Jr. T. M. Teegarden is superintendent of entries; A. E. Campbell and W. J. Cupp, of horses; E. W. Laibe, of cattle; J. C. Begg, of sheep; J. M. Kuhn and Homer K. Keifer, of swine; Charles W. Allen, A. Stewart, of poultry; H. T. Stump, of fruit and farm products; W. J. Cupp, of farm machinery and agricultural implements; Charles A. McCrate, of needlework and fine arts; W. M. Crawford and Superintendent Earl F. Smith, of school display work.
A parade of all the stock that can be led will be held on the closing day of the fair. A pony show will be a feature, when Welsh or Shetland ponies of any age will compete for prizes ranging from \$1 to \$5.
Besides the premiums offered by the fair society, merchants of Columbus Grove have donated premiums for exhibits of articles of animal husbandry. The school display will include work of any nature and along any line, which has been prepared as a part of school work. Prizes are offered for both village and rural display.
The fair is conducted in compliance with the rules and regulations of the State Board of Agriculture.

JOSEPH HARRIS DIES AT NIECE'S HOME IN OTTAWA
OTTAWA.—Joseph Harris, 51, wealthy real estate owner of Putnam and Hancock counties, died Monday afternoon at the home of his niece, Mrs. E. C. McClure, W. Main-st. A week ago he was stricken with paralysis.
He was born and resided during his life in Putnam-co. He is survived by two sons, Reese Harris, of Hancock-co, and Roy Harris, of Flint, Mich. Reese Harris, Sr., of Gilboa, is a surviving brother.
Funeral arrangements have not been completed.

SOCIAL CIRCLE ELECTS VAUGHNSVILLE.—Mrs. D. L. Williams was elected president of the Social circle. Mrs. Grace Hathaway was elected vice president, Mrs. Florence Slusser, secretary; Mrs. B. F. Smith, assistant secretary; Mrs. F. E. Roberts, treasurer; C. T. Evans, Mrs. Evan Foulkes and Mrs. William Young, members of the floral committee.

28,000 ATTEND 719 PUTNAM-CO MEETINGS, FARM AGENT REPORTS

OTTAWA.—A total of 719 meetings were held in Putnam-co during the year 1923, according to the report of J. W. Henderson, county agricultural extension agent, filed Saturday following the annual meeting of the Putnam-co Farm Bureau. The total attendance at these meetings numbered more than 23,000.
There were 339 demonstrations of projects made, and 21 boys and girls clubs were organized.
Extension specialists gave 95 days to the county and the farm bureau office had 3,410 calls on extension work. A total of 8,521 individual letters were written and 26,116 circular letters were sent out.
An interesting feature of the report was the figures on the pig club work. Sixty-two pigs were shown at the fair, the market value being \$1,355.50 and the cost of raising, as taken from the club record books, being \$835.50.
Report of William J. Kierman, the secretary and treasurer, showed that the farm bureau was in good financial condition.

TWO BOYS HALED BEFORE COURT

Can't Leave Property of Other Lads Alone, is Charge

Miletus and Henry Linger, 13 and 11, Delphos, turned over to Allen-co juvenile authorities Monday, will be tried for theft before Juvenile Judge J. H. Hamilton, some time during the week, it is announced.
In the meantime the two lads are looked up at the Allen-co detention home, in N. West-st.
Loot, found by Delphos police, comprising four bicycles and three coaster wagons, have been returned to boy and girl owners of Delphos.
"Telling to them does them no good," Delphos police told Frank H. Chapman, probation officer, when he turned them over to him. "They promise to be good and start right out to steal again."
"Why, we had them in Friday and they both promised to cut out s'pose them did. Went right out and copped their third wagon."
A few days in the home, juvenile officers believe, will put the boys in a repentant mood, but Judge Hamilton may send them to an industrial home, if parents cannot give them more attention.
Henry Linger, father of the boys, works at night, and his wife works during the day.

NEW PEACE MEASURE OFFERED IN CONGRESS

WASHINGTON.—Senator Magnus Johnson, Minnesota, today introduced a resolution in the senate, authorizing the president to call an international conference of all nations, with whom the United States has treaties for the purpose of formulating new treaties against war.

The resolution also provides for appointment of an international peace commission which would investigate international tangles and report within 12 months.
Senator Ladd, North Dakota, progressive, introduced a resolution which would prevent the president referendum except in case of invasion or insurrection.

Kellogg's Bran is prepared to do one thing—AND DO IT WELL!

Kellogg's Bran will permanently relieve constipation, mild or chronic. It is scientifically prepared for that purpose. It is ALL BRAN, therefore it has the necessary bulk to assure results. Foods with a small bran content cannot afford permanent relief.
When your physician or friend advises you to eat Kellogg's Bran, you follow-on for the purpose of eliminating a dangerous clogging-up and toxic condition of your system. You can't afford to take half-way measures! Think of the lost time and the dangers of illness you are daily dodging!
What you must have is real bran—KELLOGG'S BRAN, and if you will eat it regularly each day you will become a different person within a week or so. Kellogg's Bran, with its natural bulk, sweeps, cleanses and purifies. It not only gives relief, but it regulates the bowels. Every member of your family should eat it—every day—at least two tablespoonsfuls; in chronic cases as much with each meal.
Try Kellogg's Bran mixed with a hot cereal, or cook it with hot cereals, adding two tablespoonfuls of Bran for each person. Other popular ways are to sprinkle Kellogg's Bran on hot or cold cereals or to eat it as a cereal with hot milk. You can make delicious bakery products with Kellogg's Bran. Recipes on every package.
Kellogg's Bran is not only nationally sold in grocery stores, but can be had in individual packages in first-class hotels and clubs. Ask for it at your restaurant. Be certain to eat Kellogg's Bran daily for health's sake!

FOLK SONGS ARE ETUDE CLUB THEME

MEMBERS of the Etude club enjoyed a delightful program Tuesday morning at their regular fortnightly meeting held at the home of Mrs. J. E. Evans, 418 W. North-st. Mrs. Ralph Shrider was the morning's leader and the subject was "National Folk Music and Negro Music."

Preceding the musical program, Mrs. Shrider read a most interesting paper, telling of the history of the national folk music and of Stephen Collins Foster, who has been called the "Father of Negro Folk Songs." Mrs. R. O. Woods sang "T. Burleigh's 'Deep River'." Mrs. C. S. Baxter, Mrs. R. O. Woods and Mrs. Charles Black sang "Lord, The Trouble I've Seen," a trio, composed of Mrs. Gale Dunifon, violinist, Mrs. Andrew Dimond, cellist and Mrs. Harry Macdonald, pianist, played "They Will Not Let Me A-God" and "Sometimes I Feel Like a Motherless Child." Mrs. J. E. Mealy sang a group of negro songs, accompanied by Mrs. Martha Fisher at the piano.

Mrs. J. J. Pettler, a guest of the club, played "The Hungarian Dance" and "From the Canebrake," accompanied by Miss Geraldine Evans.

The next meeting of the club will be on January 8th, with Miss Annette Roby.

SUSIE SMART'S ADVICE

Dear Susie Smart:—
W. I am two girls in our teens. Will you please answer our questions as we need advice. You will think so when we get them.

What would you say to a boy when he calls you on the telephone and asks you for a date? We sit close to each other in school. We would like to have advice whether we should go with them.

Would you please give me a good fudge recipe?

How old do the girls have to be before they can have company and how often should he come? Does it make any difference in the color of eyes or should we both have the same color?

What is the meaning of the names Oscar, Geneva, Madge and Doyle? Which boy and girl do you think is the prettiest? Which do you think would be along the best, Oscar and Geneva, Madge and Doyle? We were just talking of some boys and girls and tried to know what you think about it. We can tell them your advice.

We have been very anxious to know if you think they would say if we knew we were this.

We are 13 and 14 years old and our boys are 14 years. Are we old enough to wear our wedding and engagement rings (we hope so). Our husbands are rich so we are happy. Please answer these as quick as possible as we need plenty of advice? Don't you think so?

How is our writing for young housewives? We hope to get married in June after school.

THE proper reply for a girl of your age would be, "No, thank you. I am too young to go out with the boys; call me in a year or so." But, if you were older and wanted to go out or have the young man call, say so. However, both of you girls are entirely too young to be thinking of the boys.

Ten-minute fudge. Mix together 2 cups of granulated white sugar, 1-4 teaspoonful salt, and 1-2 cup of milk (a generous measure) and add 2 squares of unsweetened chocolate. Let it cook 6 minutes after it comes to a boil. Remove from the fire, add 1 tablespoon butter and 1 teaspoon of vanilla and beat four minutes. Pour into buttered pan.

The girls' mother is the best one to decide that but I should say 16 years old is the best age for a girl to go about with the boys. No, I can't see where the color of one's eyes should make any difference.

Oscar means strong warrior; Doyle means golden. Geneva means favor; and Madge means a pearl. Personally, I prefer the name of Madge and Oscar. That would be a difficult thing for me to do—to say whether I thought Madge would get along better with Oscar or Doyle or whether Geneva would prefer Oscar rather than Doyle. Tell them for me I think they are rather silly if they are worrying over such a thing, will you? And I hardly think it any of your concern.

Yes, I certainly think you do need plenty of advice and perhaps the best thing that should happen to you, would be an old-fashioned spanking. For girls your age to talk and write as you do! I think you're awfully silly and I'm sure there are many more interesting things for you to do than to talk about your husbands, engagement and wedding rings.

Good.

Dear Miss Smart:—
Can you give me an address to a New York teacher where I could write for a job in the fall as a chorus girl?

What do the following names mean: Lucille, Leona, Floyd, Edith, and Edwin?

Most of the chorus girls in the variety shows in New York have had a great deal of experience and it would be very hard for you to write and get a place in any of the choruses. If you can dance and think it would not be difficult for you to get a job, the only thing for you to do is to go to New York. However, I wouldn't advise it unless you are very sure of your future.

Lucille means born at break of day; Leona means light; Edith means happiness; Edwin means gainer of property and Floyd means pious.

To A Worried Mother:—
Send me a stamped addressed envelope and I will be glad to answer your letter, personally.

Miss Eloise Cunningham, S. Collett-st., opened her home Monday evening for a regular meeting of the Delta Delta sorority. Miss Gertrude Boose presided during the business session, when plans were made for a dinner-bridge to be given on December 28th at the Hotel Barr. Mrs. William Aigrie is in charge of the affair and has as her assistants Miss Annette Roby, Miss Catherine Galvin and Miss Dorothy Kahle. The philanthropic work to be done in the city at Christmas time was discussed.

During the social hour, a two-course luncheon was served by Miss Cunningham, assisted by her sister Miss Frances Lou, and Miss Margaret Gregg.

The next meeting of the sorority will be held Wednesday, December 19th, with Miss Margaret Graham, Lakewood-av. Initiation will be held at this time.

Mr. and Mrs. F. G. Smith, S. Charles-st., welcomed the members of the Lucky Twelve Five Hundred club to their home, Monday evening. At the conclusion of the games, Mrs. L. E. Bonifas and F. A. Elstro held high score among the members and Mrs. George Harrod and Carl Wetherill among the guests.

A two-course luncheon was served by the hostess after which dancing was enjoyed. Guests were Mr. and Mrs. George Harrod and Mr. and Mrs. Carl Wetherill.

Mr. and Mrs. Earl Marmon, Olmedo-apts., W. North-st., announce the engagement of their only daughter, Marjorie Anne, to Herman P. Geiser, son of Rudolph Geiser, 938 N. West-st.

The marriage of Miss Marmon and Mr. Geiser will not doubt be solemnized during the holidays, although no definite date has been set.

Mrs. C. S. Troutman told in a most charming manner the Christmas story from the Bible at the meeting of the Twentieth Century Club Monday evening at the home of Mrs. A. A. Dole, Brice-av. Roll call was answered by the twenty members present with Christmas quotations from the Bible. Mrs. J. R. Meilly sang several delightful Christmas carols, also telling a story of each one.

A "grab-bag" was enjoyed during the social session and a luncheon served by Mrs. Dole, assisted by Mrs. M. U. Basinger and Miss Mabel Mackenzie, who with Mrs. Dole composed the program committee.

The next meeting of the club will be on January 7th, with Mrs. John Davidson, W. Market-st.

Mrs. Edward Haneke entertained the members of the Band and Table club at her home on Brice-av. Monday afternoon. A delightful Christmas program was given, the Christmas story being told by Mrs. Mary Moore. Christmas carols were sung by the club members, with Mrs. Haneke presiding at the piano. A feature of the afternoon was the annual Christmas exchange, enjoyed by the members.

Those in charge of the program Monday were Mr. Seth Adgate, Mrs. J. B. Boutet, Mrs. J. W. Blackburn and Mrs. William Baumbarger.

At five o'clock, Mrs. Haneke served a two-course tea, assisted by Mrs. W. H. Kerman.

The next gathering of the club members will be a "watch party" to be held at the Edward Malone home, Lincoln-av., for members and their husbands.

Members of the Bay View Study club met Monday afternoon with Mrs. M. U. Basinger, W. Spring-st. Appearing on the program, Mrs. J. W. McCarty, who spoke on the "History of Spanish Literature," Mrs. Abner Jones, who talked on "Moorish Literature" and Mrs. E. G. Weadock who told the Christmas story from Don Quixote.

Following the program, Mrs. Basinger served a tea, assisted by Mrs. W. J. Fitzgerald, Mrs. C. W. Heister and Mrs. Julia Simpson.

The next meeting of the club will be on January 7th, the hostess to be announced later.

Mrs. E. C. Watson, 831 W. Spring-st., welcomed the members of the Encore club to her home Tuesday afternoon for their annual Christmas party. An informal musicale was given during the afternoon. Mrs. Watson served a two-course tea at five o'clock.

Guests were Mrs. C. E. Meyer and Mrs. P. Reed Marshall.

Members of the Stitches club gathered at the Hotel Arbonne for luncheon and bridge on Tuesday, enjoying their annual Christmas party. Covers for 16 were laid at the luncheon table, attractive in its Yuletide decorations.

Following the luncheon, the women adjourned to the mezzanine floor, where bridge was played and a "grab-bag" was enjoyed.

Hostesses at the affair were Mrs. W. S. Siferd, Mrs. Morgan Davis, Mrs. F. H. Wittenberg, Mrs. Carl Jones, Mrs. John Williams, Mrs. H. A. Tilton and Mrs. Paul Landis.

Miss Ida Irwin held high score among the members of the La Felice Bridge club and Miss Velocita Harper was high among the Tri Theta sorority members, Monday evening when members of the two organizations were the guests of Miss Dorothy Hensler, N. Pierce-st.

Following the card games, the hostess served a two-course luncheon, assisted by Miss Catherine Snyder.

The Missionary Society of the First Baptist church will meet Wednesday afternoon in the church parlors at 2:30 o'clock.

Mrs. W. D. Woods opened her home on W. High-st., Monday evening, to the members of the Philomathean club. Roll call was answered with current topics after which Mrs. Charles Lathrop gave two very interesting papers, one on "American Art" and the other concerning "Women Painters." Miss Ruth Parmenter's paper was on "Painters of Southwest" and she also told of art among the Indians.

Plans were made for a Christmas party to be held on Monday, December 17th, with Miss Elsie Andrews, W. North-st. A social hour was enjoyed.

The sorority will meet in two weeks with Miss Ruby Gunther, W. North-st.

Mrs. Margaret B. Colson will be the leader at the meeting of the Lima Practical Psychology club to be held Thursday evening at the Public Library. The interested public is invited to attend.

Mrs. M. S. Thompson, Shawnee, returned Monday from Cincinnati, where she was the guest for a week of her daughter, Mrs. Harry Sayer.

**BOILER MAKER,
BONE SETTER**

LONDON — (Special) — "Bone-setter" Reese, famous muscles manipulator of Youngstown, O., has a prototype in A. E. Kennard, here. Kennard, even like Reese, is helping many a poor workman disabled thru an accident, to regain control of his limbs and return to work. He used to doctor sick cats and dogs when a boy in Wales. As a worker in a Cardiff boiler shop, Kennard studied veterinary surgery and practiced this profession a while. After the war he took up the practice of healing humanity. He prescribes no medicines. All he does is reset dislocated bones, sprained ligaments or drawn muscles. And if the patient hasn't money, that makes no difference.

**CASE AGAINST MAYOR
BEFORE GRAND JURY**

TOLEDO — The case against Mayor Adolph Unger, of Tiffin, for alleged violation of the national prohibition laws, has disturbed that entire community and was made a football in the politics of that city during the recent election. Federal Judge John M. Killits said, in instructing the federal grand jury which went in session again this morning. The grand jury was especially in-

structed by the judge in this case and they were told Assistant United States District Attorney George Reed would present it this time. Mayor Unger was examined by a grand jury some time ago but Judge Killits refused to accept the report they made.

FOLK SONGS ARE ETUDE CLUB THEME

MEMBERS of the Etude club enjoyed a delightful program Tuesday morning at their regular fortnightly meeting held at the home of Mrs. J. E. Evans, 418 W. North-st. Mrs. Ralph Shriver was the morning's leader and the subject was "National Folk Music and Negro Music."

Preceding the musical program, Mrs. Shriver read a most interesting paper, telling of the history of the national folk music and of Stephen Collins Foster, who has been called the "Father of Negro Folk Songs." Mrs. R. O. Woods sang "T. B. Burleigh's 'Deep River,' accompanied by Mrs. J. E. Dexter and Mrs. C. S. Baxter, Mrs. R. O. Woods and Mrs. Charles Black sang "Lord, The Trouble I've Seen," a trio, composed of Mrs. Gale Dunifon, violinist, Mrs. Andrew Dimond, cellist and Mrs. Harry Macdonald, pianist, played "They Will Not Lend Me A Child" and "Sometimes I Feel Like a Motherless Child." Mrs. J. R. Melly sang a group of negro songs, accompanied by Mrs. Martha Fisher at the piano.

Mrs. J. J. Pettit, a guest of the club, played "The Hungarian Dance," accompanied by Miss Geraldine Evans. The next meeting of the club will be on January 8th, with Miss Annette Roby.

Mrs. Mamie Arbaugh will entertain the members of the Ideal club on Friday afternoon at the girls' club house, S. West-st.

SUSIE SMART'S ADVICE

Dear Susie Smart, I am a girl in our teens. Will you please answer our questions as we need advice. We will think so when we get them.

What would you say to a boy when he calls you up over the telephone and asks you for a date? We all like each other in school. We would like to have advice whether we should go with them.

Would you please give me a good fudge recipe?

How old do the girls have to be before they can have company and how often should they come? Does it make any difference in the color of eyes or should we both have the same color?

What is the meaning of the names Oscar, Genevieve, Madge and Doyle? Which boy and girl do you think is the prettiest? Which do you think would be the best? Oscar and Genevieve, Madge and Doyle? We were just talking of some boys and girls and I wanted to know what you think about it. We can all tell you all advice. We have been very anxious to know. Do you think they would say if we knew we were this?

We are 13 and 14 years old and our boys are 14 years. Are we old enough to wear wedding and engagement rings (we hope so). Our husbands are rich so we are happy. Please answer these as quick as possible as we need plenty of advice. Don't you think so?

How is our writing for young housewives? We hope to get married in June after school.

"JUNE BUGS"

THE proper reply for a girl of your age would be, "No. Thank you, I am too young to go out with the boys, call me in a year or so." But, if you were older and wanted to go out or have the young man call, say so. However, both of you girls are entirely too young to be thinking of the boys.

Minute fudge: Mix together 2 cups of granulated white sugar, 1-4 teaspoonful salt, and 1-2 cup of milk (a generous measure) and add 2 squares of unsweetened chocolate. Let it cook 6 minutes after it comes to a boil. Remove from the fire, add 1 tablespoon butter and 1 teaspoon of vanilla and beat four minutes. Pour into buttered pan.

The girl's mother is the one to decide that but I should say 16 years old is plenty young enough for a girl to go about with the boys. No, I can't see where the color of one's eyes should make any difference.

Oscar means strong warrior; Doyle means golden. Genevieve means favor; and Madge means a pearl. Personally, I prefer the name of Madge and Oscar. That would be a difficult thing for me to do—to say whether I thought Madge would get along better with Oscar or Doyle or whether Genevieve would prefer Oscar rather than Doyle. Tell them for me I think they are rather silly if they are worrying over such a thing, will you? And I hardly think it any of your concern.

Yes, I certainly think you do need plenty of advice and perhaps the best thing that should happen to you, would be an old-fashioned spanking. For girls your age to talk and write as you do! I think you're awfully silly and I'm sure there are many more interesting things for you to do than to talk about your husbands, engagement and wedding rings.

Good.

Dear Miss Smart—

Can you give me an address to a New York teacher where I could write for a job in the fall as a chorus girl?

What do the following names mean: Lucille, Leona, Floyd, Edith and Edwin?

Most of the chorus girls in the various shows in New York have had a great deal of experience and it would be very hard for you to write and get a place in any of the choruses. If you can dance and think it would not be difficult for you to get a job in the only thing for you to do is to go to New York. However, I wouldn't advise it unless you are very sure of your future.

Lucille means born at break of day; Leona means light; Edith means happiness; Edwin means gainer of property and Floyd means pious.

To A Worried Mother:

Send me a stamped addressed envelope and I will be glad to answer your letter, personally.

**BOILER MAKER,
BONE SETTER**

LONDON — (Special) — "Bone-Setter" Reese, famous muscles manipulator of Youngstown, O., has a prototype in A. E. Kennard, here. Kennard, even like Reese, is helping many a poor workman disappointed thru an accident, to regain control of his limbs and return to work.

He used to doctor sick cats and dogs when a boy in Wales. As a worker in a Cardiff boiler shop, Kennard studied veterinary surgery and practiced this profession a while. After the war he took up the practice of healing humanity. He prescribes no medicines. All he does is reset dislocated bones, sprained ligaments or drawn muscles. And if the patient hasn't money, that makes no difference.

CASE AGAINST MAYOR BEFORE GRAND JURY
TOLEDO — The case against Mayor Adolph Unger, of Tiffin, for alleged violation of the national prohibition laws, has disturbed that entire community and was made a football in the politics of that city during the recent election. Federal Judge John M. Killits said, in instructing the federal grand jury which went in session again this morning. The grand jury was especially in-

structed by the judge in this case and they were told Assistant United States District Attorney George Reed would present it this time. Mayor Unger was examined by a grand jury some time ago but Judge Killits refused to accept the report they made.

BOY KILLED
CINCINNATI — Joseph Goldstein, 13, was accidentally shot and killed by Frank Crocker, a companion.

A MATING IN THE WILDS

BY OTTIE WILKINS

BEGIN HERE TODAY

Hubert Stane, a man in prison for forgery, is rescued by Helen Yardley from the river when her life is in danger. They start to walk the trail to the camp of Helen's uncle, a northern post of the Hudson Bay Company. They take possession of a deserted cabin and at night the cabin is attacked by Indians. Helen is abducted and Stane is left for dead. Renard, a trapper, finds Stane and rescues him. They are joined in the search for Helen by Anderson, the "W. M. F." Gerald. Aliney, in love with Helen, shoots her captors and rescues the girl.

NOW GO ON WITH THE STORY

"Didn't know me, Aliney? I daer say not. I'm not quite the tailor's apprentice that I was in the old days at the 'Varsity. Got a man's job now, you see. And that reminds me, I'm late on duty. I happened to be up the Little Moose when that shooting took place this morning. There's a couple of dead Indians up there, and as I guess you had something to do with their sudden death I shall have to call on you for an explanation you know."

Aliney looked at the policeman without fear. He waved a hand towards the fire.

"May as well make ourselves comfortable. It's rather a long story I have to tell. Where are your dogs?"

"Back in the wood—anchored. I'll slip back and fetch them."

"No," said Stane. "I will go back for them."

He turned, and Helen turned with him.

"You don't mind," she whispered. "Mind?"

She walked by his side, a hand on his arm. Once when they were well in the shadows of the wood they stopped, and with his arm about her he kissed her.

"My dear!" he whispered, "my dear!"

Helen said nothing immediately, but gave a little sobbing laugh of gladness. Then after a moment she asked, "How did you escape? How did you find me?"

"It is too long a story to tell you the whole of it just now. But right in the nick of time, when I was expecting to die, the owner of our cabin, Jean Benard, came back. He saved my life; but as he knew nothing about you, the attackers got away with you, but as soon as he heard my story he got ready to pursue, and having found out that your kidnappers were making for the Little Moose we took a short cut and waited for you. We were at your heels when the rifles fired from the shore."

"Then you were with that second sledge?"

"I and Jean Benard."

They moved forward together, found the dogs and having righted the sledge by which they had been anchored, they returned to the camp. Aliney, pipe in hand, apparently quite cool, was talking.

"Having got the news, I made straight for the cabin, and had the ill-luck to arrive there half an hour too late. One of the men found a dead man, who, from the description, I mistook for Stane there, and we also found a wounded Indian, who, with a little persuasion, told us what he knew, which was that a half-breed, of the name of Chigmok, inflamed with love for Miss Yardley, had carried her off, designing to make her his squaw. I understand this Chigmok is what the Indians call a bad man—but perhaps you know him?"

He broke off and looked directly at Anderson as he spoke, and waited for a reply. The mounted policeman nodded, and as casually as he could replied: "Yes, I have met him. He is—no good."

"By all accounts you have met a regular rogue, Anderson! But to resume, the Indian told us that Chigmok had carried off Miss Yardley. Under pressure he told also that the place for which the half-breed was making, a desolate district, little traveled—the Lake of the Little Moose. Know it?"

"Yes, I was there this morning."

"Then you were with that second sledge?"

"I and Jean Benard."

I understand this Chigmok is what the Indians call a bad man—but perhaps you know him?"

He broke off and looked directly at Anderson as he spoke, and waited for a reply. The mounted policeman nodded, and as casually as he could replied: "Yes, I have met him. He is—no good."

"By all accounts you have met a regular rogue, Anderson! But to resume, the Indian told us that Chigmok had carried off Miss Yardley. Under pressure he told also that the place for which the half-breed was making, a desolate district, little traveled—the Lake of the Little Moose. Know it?"

"Yes, I was there this morning."

"Then you were with that second sledge?"

"I and Jean Benard."

They moved forward together, found the dogs and having righted the sledge by which they had been anchored, they returned to the camp. Aliney, pipe in hand, apparently quite cool, was talking.

"Having got the news, I made straight for the cabin, and had the ill-luck to arrive there half an hour too late. One of the men found a dead man, who, from the description, I mistook for Stane there, and we also found a wounded Indian, who, with a little persuasion, told us what he knew, which was that a half-breed, of the name of Chigmok, inflamed with love for Miss Yardley, had carried her off, designing to make her his squaw. I understand this Chigmok is what the Indians call a bad man—but perhaps you know him?"

STARING AT HIM WITH EVIL EYES FULL OF HATE.

Stane and I have just come from there."

"Ah! you also followed Chigmok's trail, I suppose. But I was there first. I followed a shorter route and I was at his camp waiting for him when he showed up. I saw Miss Yardley on the sledge, and as for the moment we were three against three, I felt that it was not an occasion when chances should be taken, so we fired from the bushes on the three kidnappers and shot them down. Then as there was another sledge coming on behind, I reloaded Miss Yardley to my own sledge, and to escape further trouble we pushed the dogs hard till we got here. . . . And that's about all, I think."

He fell silent for a moment, and sat there watching the two white men and the white girl who had heard the conclusion of his narrative.

After a little time Anderson spoke.

"Seems a long time since we three men foregathered at Oxford."

"Yes," agreed Aliney, apparently relieved at the change of subject. "A good bit of water has gone down the lake since then."

"And all the circumstances considered it is rather a coincidence that we three should meet like this in the wilderness."

"It certainly is dramatic," admitted Aliney. "Quite a Drury Lane drama."

"More so than you know, Aliney," answered Anderson quickly. "Stane, let Aliney take a look at that piece of paper you carry about with you."

A moment later Stane had opened the oilskin packet, and was unfolding the sheet of note-paper. Aliney watched him in amazement, and then as Stane held the paper towards him, and he bent over it, a look of consternation came on his face, and a quick oath broke from his lips.

"Where did you find that paper, Stane?" said the policeman brusquely.

"In a copy of Jowett's Plato which Aliney had borrowed from me, and which he returned to my scout after I was arrested."

"It's a bare-faced lie! A plot!" cried Aliney. "I'm surprised at you, Anderson—a representative of the law too—leading yourself to such an absurd charge. You ought to know better."

"I know more than you think, Aliney. You remember Jarlock who was in our set—"

"Jarlock!" The name broke from Aliney in a tone of consternation.

"Yes, Jarlock! A good fellow, Jarlock. A friend who could forgive a friend his faults, who indeed could on occasion overlook a crime when he thought it was the crime of a hard-pressed man."

"What in thunder are you gassing about?" cried Aliney blusteringly.

"About Jarlock and a certain promissory note which he paid, a note which bore your name and his. Your signature was quite genuine. Jarlock's—well, Jarlock denied it, and you owned that you—"

"He told," said Aliney. "The cur told!"

"Yes, he told me in confidence, after he had heard of Stane's denial of the charge for which he was imprisoned. You see he believed in Stane, as I did myself."

"And you would make me the scapegoat for Stane's crime," Aliney laughed harshly. "I will see you hung first," he cried. "I—"

He broke off abruptly as a sound of yelping dogs sounded from the wood, and stared into the darkness. Anderson rose from his seat.

"I expect that will be Jean Benard," he said quietly.

"Jean Benard? Who is Jean Benard?" cried Aliney.

"He is the man who Stane and I left to bring Chigmok along."

"Chigmok!"

"Yes, you see, Aliney, Chigmok was not dead as you meant him to be. He was only winged, and he was able to tell his story which was a much more interesting story than yours, and as I beg leave to think, a much more truthful one."

CHAPTER XXIV

The Trail to Paradise

When Aliney lifted a white, tortured face, it was to find the man whom he had used as a tool, and whom, having used, he had tried to kill, seated by the fire, staring at him with his evil eyes full of hate. For a moment there was silence, then Anderson spoke.

"Would you like to hear Chigmok's story, Aliney?"

"There is no need that I should," answered Aliney with a bitter, hopeless laugh. "I can guess it fairly well."

He unbuttoned his furs and taking out a pocketbook and pencil began to write. Jean Benard, having fed his dogs, began to prepare a meal for himself. Anderson sat by the fire, staring into the flames, reflecting on the irony of fate that had selected him of all men in the Mounted Service to be the one to arrest his willful fellow-student, Stane had turned away and joined Helen, who still paced to and fro in the shadows.

DR. MURPHY "ODD" EX-WIFE SAYS

"Peculiarities" Alleged in Suit
Against Physicians Will

POISON DELUSION RELATED

Feared Spies, Went Out Armed,
Witness Says of Him

Trial of the Dr. John J. Murphy case dragged into its second day Tuesday, with Mrs. Margaret Murphy former wife of the dead physician still on the stand telling of her eccentric husband's peculiar ways.

She concluded her direct examination Tuesday morning, and cross-questioning was begun by counsel for the defendant, Dr. Mabel Dunn-Murphy.

Mrs. Margaret Murphy's story was much the same as related at the former trial. She told how the physician kept a Hawthorne club, a pistol and brass knuckles in his office and when he went out he carried the weapons with him.

Mrs. Murphy told the jury Dr. Murphy suffered under the delusion that someone was attempting to poison him, and often accused the neighbors or some member of his household.

DAILY CABBAGE BOWL. Another peculiarity related was his alleged command for a bowl of boiled cabbage to be prepared for breakfast each morning.

If the cabbage was not on the table, Mrs. Murphy told the jury, her husband became very angry. But while he insisted that cabbage be placed before him daily, the witness said, never had she known of him to eat any of it. Yet he insisted that it be cooked every day.

Hints were made by the witness that Dr. Murphy accumulated a large fortune thru the nature of his practice, which enabled him to collect handsome fees.

Dr. Murphy, the jury was informed, feared he might be subjected to suit at any time, and for that reason had the bulk of his real estate holdings in his wife's name.

Money, bonds and securities which readily could be concealed, however, were retained by him, according to Mrs. Murphy.

Mrs. Murphy told of Dr. Murphy's expulsion from the Order of Hibernians, an Irish society, and of his complaints that the members of the organization were spying upon him and seeking to ruin his business.

Refusal of Dr. Murphy to allow his wife to undergo an operation in 1912, was related. Dr. Murphy, according to his former mate, said an

operation was an unnecessary expense as she would die anyway. When other physicians were called in, Dr. Murphy is alleged to have thrown his hands in the air and shouted:

"Our have disgraced me. My reputation is ruined."

Mrs. Baughman and Mrs. Edmonds, daughters alarmed by their mother's condition, finally took her to Chicago, where an operation was performed by Dr. J. B. Murphy, surgeon of that city, and a relative of Dr. J. J. Murphy.

According to Mrs. Margaret Murphy, the operation made her husband furious, and was a disappointment to him when she recovered her health.

It was shortly after this, the witness said, that divorce action was commenced. The decree subsequently was granted her on a cross petition.

THEFT SUSPECT SPENDS NIGHT IN LIMA JAIL

ACE MARTINIS, Spaniard, accused of being a member of an automobile theft ring of Ft. Wayne, was returned to that city Tuesday morning by Detective Eisenhut after spending Monday night in Lima city jail.

Martinis was arrested Monday in Marion after a chase thru three states. Police claim he had a stolen automobile when taken. Eisenhut claims the captive will be charged with grand larceny of five automobiles in Ft. Wayne.

League Officials Get Down To Business After Hectic Opening Day

CHICAGO — (Associated Press) — After one hectic day of fleeting rumors and few accomplishments, professional baseball league officials today settled down to the second of their week's sessions with a more definite program of work before them.

Amid talk of big player trades, deals involving managers and schedules, the various league officers and the board of arbitration of the National Association of Minor leagues got down to action.

Six meetings were held Monday but the National League, the Southern Association and the International League were the only organizations accomplishing any business. Attendance records, use of baseballs, home runs and pitching methods were before the National League. President Heydler said that the past year broke all attendance records for the National League.

SAME RULE FOR PITCHERS

The league decided that pitchers will have to get along, as last season, without the use of Rosin or other foreign substance. An attempt to remove these restrictions was unsuccessful. There also was discussion of a proposal by President Baker of Philadelphia to prevent home runs from balls that bound into the bleachers. Action was deferred while President Heydler attempts to make a ruling covering fields where disputes on that question arise.

A committee was named by the National League to see that the 1925 season is properly conducted as the fiftieth anniversary of the organization. The meeting also passed a resolution deploring the death of William Donovan, who was killed in the wreck of the Twentieth Century Limited Sunday.

A schedule of 168 games was voted by the International League with the season in 1924 opening April 18.

George Siler and Babe Ruth were voted awards for their distinguished playing in 1923 and 1922, but the nature of the awards was left to President Johnson's decision.

While rumors of important trades ran into the hundreds, only two actual deals were announced. They involved Max Bishop, star second baseman of the Baltimore Orioles, who was purchased by Connie Mack of the Athletics for a reported \$150,000 and some players, and purchase by Buffalo of Dewey Hill, a catcher with Toronto.

NO MCCARTY DECISION
CHICAGO, Ill. — (By United Press.) — Worn out by almost 15 hours of continuous conferences the National Board of Arbitration Professional Baseball Leagues, adjourned.

At 4 o'clock this morning without announcing a decision in the dispute between William McCarthy and Harry Williams over the presidency of the Pacific Coast League.

T. H. Farrell, secretary of the board, said that the body would resume discussions around noon. A decision may be handed down late Tuesday or Tuesday evening, he said.

While the conference room was sealed and inquisitive persons were barred from the doors, it was manifest that an extremely bitter fight was on.

The board went into session early in the afternoon, and the McCarthy-Williams case was called almost immediately. Summed up, McCarthy contended that the vote ousting him and seating Williams was illegal. Williams argued the vote was legal in every respect. Lawyers represented the contestants and final arguments in the case were not concluded until after midnight.

The board conferred until four o'clock and decided to sleep on the matter. Under the so far placid surface of the major league waters, a battle is brewing that may erupt with a crash tomorrow. The case of Urban Shocker of St. Louis, contending the dynamite ball, president of the club, announced that he would keep Shocker in the face of the latter's demand to be made a free agent. Shocker has applied to Commissioner Landis for a ruling to free him from St. Louis. Shocker argues that the club nullified his contract by inflicting an unjustified penalty on him—slapping a suspension on him because he insisted on having Mrs. Shocker accompany him east.

Landis rules with Shocker, the expulsion may follow. Baseball sharks hold that Landis cannot do otherwise under the circumstances. Ben Johnson, president of the American League, does not feel any too friendly toward Landis. Johnson feels that Landis has overstepped his powers and resents encroachment upon American League territory. President Heydler of the National League was understood to have conferred with Johnson in the latter's home. What this conference portends no one knows.

The game with Wilmington was scheduled last week, and due to a misunderstanding was immediately cancelled. But Manager Plicker of the L. B. C. Monday received a telegram from Coach Bolen of Wilmington to the effect that the local offer would be accepted. So after all Lima fans will get the chance to see the old South stars in harness, Winegardner, James and Fisher, all of whom will be here with Wilmington. Winegardner is the regular center while James is a guard. Fisher is a substitute forward.

The Business College girls' team will appear in the preliminaries to the Thursday and Friday night games.

SOUTH HI STARTS PRACTICE
First basketball practice of the season was held at South yesterday. Fifty candidates turned out, from which Coach Burdette picked a number of teams. Gradually as he sees the good and bad points of the individual players he will shift them to other teams.

Basket-shooting was the main part of the program, but some scrimmage games were indulged in to some extent. The same routine of training will be carried out today.

Burdette has ample time to pick out the five best men for the first team as there will be no games until January 4. Then the Blue and Gold cagers will go to Bucyrus.

Grid men of South Hi will hold their annual banquet Thursday night in the school cafeteria. All players and their mothers will be invited. Speakers on the program will be members of the faculty, coach and players.

INDUSTRIAL LEAGUE
The Industrial Basketball League has three more games for Lima fans tonight at the "Y". Garford will meet the Solar five in the first contest; the L. E. & W. will play the Edison-Wemmer outfit; and in the third game the Trust Co. will stack up against the strong Loco cagers.

The second game of the evening will probably be the star number. Both the L. E. & W. and Edison-Wemmer teams are tied for first place, and the winner of the clash tonight will remain in the top position as undisputed champion—for a whole week.

Garford and Solar should be evenly matched, but the Loco should have an easy win over the Trust five, which, however, showed hidden strength by walloping the Garford quintet.

BABE DOING STUNTS ON THE FARM

BABE FEEDS THE CHICKENS, MUCH TO THE DELIGHT OF BABY DOROTHY. THEN TO PROVE THE HOME-RUN EYE IS STILL IN TRIM SHOTS THE HEAD OF AN INDIAN INTO A SHEET OF TIN.

The simple life did it.

If you asked Babe Ruth how he staged the greatest comeback in the history of sport, that would be his reply.

When the season of 1922 was brought to a close with the absolute rout of the New York Yankees Babe Ruth went into winter quarters a broken idol.

During the season his play had fallen below expectations and in the series he was a positive "bust."

The Babe is thru.

That was the opinion freely expressed by his fellow players and sporting experts.

Near the close of the 1922 season the Babe bought a farm at Sudbury, Mass. At that time he must have realized that he had been a failure. In all probability he was then giving thought to his intended comeback.

STRONG FOR SIMPLE LIFE
"Me for the simple life," he told New York when he bade Broadway and its bright lights goodbye.

"The bunk," echoed the sport experts.

I had a chat with the Babe just prior to his departure for the farm and the simple life. I realized he had the best of intentions but wondered if he had the old determination to carry them thru.

This spring I met Babe Ruth in the lobby of the Greenwald Hotel in New Orleans. I had just hit the town on my tour of the training camps. Ruth was chatting with Manager Miller Huggins.

Never had I seen Ruth in such excellent physical condition. He was lighter than at any time in his career, scaling just a trifle over 200.

I congratulated him on how well he looked.

"The simple life on the farm did it," he replied, "and you can tell the world I am going to fool a lot of the wise guys who insisted I was thru. I am lighter than at any baseball history. He did everything in my major league career."

"When you made the 59 home runs in one season you weighed around 240 all year," said Manager Huggins.

"True," replied the Babe, "but all I did that year was make home runs. This year I am going to be a regular ball player, do a bit of everything."

"Loss of weight has made me much faster. Reducing the waistline and the chest measurement has fans."

given a much freer arm movement with the result that I have improved my throwing 50 per cent. In fact, I am thru swinging at every pitch—I'm going to look them over, make the pitchers pitch to me."

The comeback of Babe Ruth is baseball history. He did everything he said he would and then some. He topped it off by being the hero in one season you weighed around 240 all year," said Manager Huggins.

Babe has proved by experience. He is again spending the winter at dear old Sudbury and keeping fit by hunting, doing the chores around the house, in general by leading the simple life.

More power to you Babe, say the fans.

AS A MATTER OF FACT

Being a Criticism of the Just and the Unjust in the World of Professional and Amateur Sports
By LARRY GRADY

In the matter of bowling a perfect score, over the Recreation alleys, E. A. Steell, is to be congratulated. It is a feat very seldom accomplished, even by the most expert bowler; the target which every bowler is continually shooting at, and rarely makes a bulls-eye. Any bowler that has ever made a perfect score, will say that towards the latter part he is apt to get very nervous, with the consequences that chances are against him. It is true, however, that the feat, which at first was supposed to be the record for this locality, led to looking up records and it was found that in 1917 E. Stepleton did the impossible and bowled a perfect score. This took place on the old Allen County alleys. If we go further back to the halcyon days of the old Country Club alleys it is reported that Frank "Lefty" Cramer was the first bowler in Lima to bowl a perfect score. The peculiar phase of this is that Steell is a portside bowler as was Cramer. It is a fact that the feat has been accomplished less times than with right-hand bowlers.

Steel accomplished a perfect score on alley No. 2 and it was witnessed by about 75 people. It is the big thing that counts more than other phases of the game. Thus was a match game and it is to be supposed that he won it. But as a matter of fact it is some bowling when you knock down a perfect score.

CARPENTIER WANTS TO COME AGAIN
Carpenter wants a match with the winner of the Greb-Tunney bout. It is said that Tex Rickard is seriously considering the proposition. It is said that the Frenchman has accepted Rickard's terms, for a bout with a suitable foe. He is waiting Rickard's orders to start, and it is very likely that he will be seen in action in the Garden before many moons. It is not quite certain what has resulted in the proposed match between Carpenter and Tommy Gibbons. The most plausible match, however, will be the one proposed—between the winner of the Greb-Tunney bout. If Greb and Carpenter do come together, it should be a crackerjack exhibition, because both the Frenchman and the Pittsburgh boy, are much after the same style. Carpenter was never heavy enough or strong enough to match prowess with Dempsey. He would have more of a chance with Greb than he would find a tough proposition.

GREB MAY FIGHT WILSON
Johnny Wilson has never been satisfied over the decision against him when he boxed Greb, when the latter wrested his middleweight title from him. He wants another match, and it seems that Greb is quite willing that it should take place. It is proposed that this match be held in the Garden next month. It was learned that the bout has been practically closed.

Signing of the articles has been deferred, pending the decision of Greb's bout with Tunney. There is a great deal of talk about Luis Vincentini, the Chilean lightweight, who is booked for a go with Johnny Shugrue, at the Garden Friday night. This is for 12 rounds. The Central American is looked upon by a good many commentators as the best of the lightweight division, and it is probable that if he wins against Shugrue in decisive title, he will ultimately get a match with a champion.

CELTICS DROP HAGGERTY
The New York Celtics, one of the greatest basketball teams in the country, will get along without the services of Horse Haggerty, the giant guard, this season. Haggerty is one of the biggest men playing basketball. He has tremendously big hands and can "palm" a basketball as easily as a baseball player can a baseball.

NEW GOLF RECORD
Cleveland has but one municipal golf course, the Highland park links of eighteen holes. Figures show that more than 65,000 golfers played over the course last season, a new record. Nine holes will be completed by spring.

triumphs to their credit, a noteworthy feat in these days of open football. Cornell hasn't lost a game in the last three seasons or not since that 28 to 0 whipping administered by Pennsylvania on Thanksgiving Day, 1920. That according to the records, is the only gridiron encounter a Doble-coached aggregation has lost in almost two decades. Some record, indeed.

DOBIE IS MIRACLE MAN OF FOOTBALL
Gil Dobie, famous football mentor at Cornell University, may well be called the "miracle coach." If anyone deserves such an appellation it is gloomy Gil, the most pessimistic pre-game tutor in captivity.

Dobie is almost in a cleft by himself when it comes to turning out championship gridiron machines. He easily ranks with Yost, Zuppke, Rockne and Haughton as a developer of winning teams. In other words, he "knows his stuff," and then some.

Dobie has been coaching football aggregations for well nigh onto 20 years. He got his start at Washington State University, out on this west coast. For nine straight seasons Dobie and his Washington State lads never tasted defeat. Year after year the opposition was trampled upon. Victories naturally grew to be anticipated regardless of the strength of the foe.

A few years back, Dobie was finally enticed to come east. He came, bringing his wonderful reputation with him. Just at about that time the University of Detroit was in need of a high-class coach.

It signed the great Dobie to a contract. Son after came an offer from Annapolis. It appeared better to Dobie than did the Detroit project. So he obtained a "release" from the U. of D. authorities and went to Annapolis.

With the Navy, Dobie experienced the same success that had been his out in the far west. Navy eleven perked up. They enjoyed winning campaigns. And Dobie was generally acclaimed by the elite east. He had made good. He had lived up to the reputation established at Washington State.

After a couple seasons at Annapolis Dobie signed up as football coach at Cornell. That was in 1920. And there he has been since.

With the coming of Gil Dobie, Cornell stock has taken a big jump. Winning aggregations have been in order. And the big Red eleven has grown to be one of the most-feared outfits in the football world. Since Dobie, the pessimist, came to Cornell, the Ithacans have compiled a great record. They have 24 straight

Ohio Conference Agree On Same Schedule As Last Year At Meeting

COLUMBUS — (Associated Press) — Should Wooster and Ohio Wesleyan demonstrate their superiority over other Ohio conference football teams in 1924 as they did during the past season, the result would again be a tie with Wesleyan credited with five victories and Wooster with eight, for the schedule of each team, drafted at Monday's Ohio conference meeting here, is practically the same as that of 1923. No game between Wooster and Wesleyan was scheduled.

Wesleyan, according to Coach George Gauthier, was desirous of scheduling more conference games, but was unable to find teams which would play the Delaware team. Gauthier said he had asked practically every school in the conference, including Wooster, for games and was refused. The situation generally was regarded as the outgrowth of the Wesleyan eligibility controversy of a year ago, at the inability to find a place on their schedule was given by most coaches as their reason for not playing Wesleyan.

St. Xavier also had trouble obtaining games, three—with Otterbein, Kenyon and Wittenberg—being all that Coach Joe Meyer was able to schedule definitely. He may find a place on the Wesleyan schedule, however. Akron and Ohio Northern also had some trouble in finding conference opponents as did Baldwin Wallace, a new member of the conference.

Case, tallender in the 1923 race, led all teams in number of groups scheduled, nine conference contests being listed. For the first time in more than two decades the Scientists will not meet Michigan. Most of the teams scheduled seven games, but Wooster and Oberlin had eight.

The difficulties encountered in drafting the schedules had a reflection in the suggestion advanced by George Trautman, assistant athletic director at Ohio State. He submitted a plan for the scheduling of the games on a four year basis under direction of a schedule committee. The plan would entail the division of the conference into sections and would assure each team in both sections a meeting every other team in its section twice in each four years. The plan was turned over to a committee for consideration.

The organization also took opportunity of reiterating its stand against the hiring of officials who also work in professional games. A ruling providing that any official professional game in any one season should be ineligible to work in a conference game during the next was adopted. Previously a motion that the former rule containing a similar provision be abrogated, as declared lost when the vote on it stood 10 to 10.

Dates for track and field events for 1924 were set during the meeting. The big six track meet will be held on May 30-31 at either Delaware or Granville instead of Columbus and the conference tennis tournament set for June 6-7 at Columbus. Ohio State also announced a new event, the Ohio relay game which will be held at Ohio Stadium April 19.

GENE TUNNEY GETS DECISION

NEW YORK — Gene Tunney, former soldier boxer and pugilistic idol of Greenwich Village, still is the light heavyweight champion of America. He decisively whipped Harry Greb, Pittsburgh challenger and holder of the world's middleweight title, at Madison Square Garden last night, obtaining the judges' decision after 15 rounds of battling.

It was the third clash between this pair with the 175 pound crown at stake and Tunney's second straight victory over his Pittsburgh rival. Greb won the championship from Tunney in 1922 but lost it early this year on a close decision.

Tunney's triumph was due solely to a withering body attack, a relentless jolting drive to the ribs that gradually wore down Greb's resistance. The Pittsburgher rallied spectacularly at times, bewildering Tunney with a leaping, swinging onslaught but Greb's blows seldom landed squarely. The loser's most sensational flurry occurred in the last round which he won after battering Tunney about the ring but this comeback could not offset Tunney's wide margin on points. Greb, too, was often guilty of rough tactics and was warned several times by the referee. Neither boxer scored the semblance of a knockdown, although Tunney slipped thru the ropes as they clinched.

Roland and Todd of England, mid-dleweight titleholder of Europe, was defeated in his American debut in a 10 round match with Tommy Loughran of Philadelphia, light heavyweight.

In Squared Circle
TOLEDO — Young Al Corbett, Cleveland, defeated Johnny Andrews, Toledo, in 10 rounds.

ZANESVILLE — "Tut" Jackson, Washington C. H., negro heavyweight, knocked out Jim Hawkins, Akron, in the first round of their scheduled 12 round bout.

PHILADELPHIA — Pancho Villa, world's flyweight champion, won judges' decision over Patsy Wallace, Philadelphia in 10 rounds.

ROCHESTER, N. Y. — Jack Fenault, Canada, knocked out Tom Cowler of England in the fourth round of a scheduled 12 round bout.

JEFFRIES TO TRAIN FIRPO
BAKERSFIELD, Calif. — James J. Jeffries, former heavyweight champion of the world, has accepted an offer to train Luis Angel Firpo, Jeffries told a representative of the Bakersfield Morning Echo last night at Taft, where the former champion refused a boxing card. Jeffries' contract to train Firpo is said to call for a remuneration of about \$75,000.

NEW YORK—(Associated Press)—Stock prices were somewhat irregular at the opening of today's market with the tobacco, steel and some of the railroad tending down. Some of the food shares, oil and motor shares found good support at better prices. General Electric advanced two points, Corn Products 1-1/2 and Chandler Motors 1-1/2. Tobacco Products, Pullman and General Asphalt each declined a point.

Easy bidding for special stocks caused some material advance—especially among shares selling at \$100 a share or better. National Lead improved 3-1/4, Corn Products 1-1/4 to a new high for the year at \$141 1/2. General Electric 2-3/4; also Elevator 1-1/2, Lorillard 3/4, also a new high at \$182 3/4 and American Can 2 points. This buying ultimately caused a steadier tone in the remainder of the list. The some of the railroads had been particularly heavy, Chicago and Northwestern yielding a point to a new low for the year at \$38 1/4. Foreign exchange rates opened steady.

Heavy speculative selling of Schulte and tobacco products took place on the announcement of the formation of a new tobacco company by the Schulte interests, which, however, failed to throw any light on the reported merger of these two companies. Schulte dropped 4 1/2 points and Tobacco Products 3 1/2. This weakness brought sympathetic selling in other quarters, particularly in the food, public utility and motor accessory groups. Subsequent support, motor shares and further rise in Corn Products checked the reaction tendency and resulted in a partial recovery around noon. Call money opened at 5 per cent.

REWEED MOTHER REFUSED PLEA FOR HER CHILDREN

Hopes of Mrs. Artha Gresham-Long, to win back custody of her three children, taken from her in common pleas court recently, were shattered Tuesday when appeals court dismissed proceedings in error instituted by her.

Mrs. Long, obtained custody of her three children when she divorced Carl Gresham last August. The court also gave her a liberal alimony award, amounting to \$15 a week.

The day following the granting of the divorce Mrs. Gresham remarried, and went on a honeymoon trip to Oklahoma. Her children were left there.

The father discovered the situation, asked the court to reopen the case and give him the children. He was successful, his former wife losing both children and alimony.

As officers took the children away, the mother fought them and fell to the floor fainting.

Action of appeals court cuts off mother entirely from a chance to have the care of her offspring.

HERE AND THERE IN DELPHOS

HERE AND THERE IN DELPHOS

Charles Shumaker has returned to his home at Aurora, Ill. after a ten days' stay with relatives and friends here. He was called to Delphos by the fatal illness of his mother, Mrs. Henry Shumaker.

F. L. Collins, travelling freight and passenger agent of the Erie Railroad headquarters at Huntington, Ind., was here Monday on business with Pennsylvania local officials.

Arthur A. R. Nelson, tax agent of the Pennsylvania, Indiana and Ohio

quarters in Chicago, was here Monday, leaving in the afternoon for Mansfield, O.

James Swick left Monday morning for the Pennsylvania lines for Phoenix, Arizona. He will visit his daughter, Miss L. M. Wilkins in the city, then go to Los Angeles to visit his son, Clarence, and family. He is also on a prospecting trip and may locate in southern California.

Should this event Mrs. Swick will join him in Phoenix to locate their home. Whether he resides to locate there, he will not return to Delphos before spring.

**CLOVERLEAF OFFICIALS
TO MEET WITH KIWANIS**

DELFIOS — Two piano numbers by Miss Mary Elizabeth Truman, music by Mrs. Rose East during the luncheon, and an address by H. Simenton of Lima comprised the program of the Kiwanis club Monday noon, inception to its present high degree of usefulness and efficiency.

Program for next Monday's luncheon has not been definitely worked out but there is a possibility that the Glover Leaf officials, who recently accepted the invitation of the club to attend one of its meetings, will be here at that time. A letter from W. J. Rose, one of the road's officials, re-

ceived last week, stated that the party would endeavor to accept the hospitality of the Delphos club at some December meeting.

WILL MOVE TO LIMA
DELPHOS — Jesse A. Cochran, farmer residing two miles east of Delphos on the Harding highway, preparing to move to Lima. Cochran has been appointed deputy county recorder of Allen-co and will take up his duties the first of January. He is closing up his farm work for the year and has rented, or will rent, his farm
